TRADITIONS THEY'RE ALL CHISELED IN GRANITE

Traditions ... Granite is a school full of them. From the first traditions in 1906 to the new ones that are formed today, they have become as much a part of our school as the buildings.

When Granite first opened, it soon became apparent that traditions would become an important part of our school. One of the first traditions was the school seal. Shortly after that the "Song of the G" was written. It is now sung at all of the football and basketball games, pep rallies, and also after the end of school assemblies. Though many of the old traditions still remain with us today, some have been altered to meet the changing times. One example of this was the Letter-Hi's which had been the school drill team until 1983. Then, they were replaced by the Marchéz, which has a larger number of members so that they can compete with the drill teams of other schools.

The street in front of the "S" building has been the sight of another tradition. At the beginning of every school year the student government leaders paint a "G" as well as the year on the street next to the sidewalk.

One of the largest traditions at Granite is Homecoming Week. During this time Farmers Market is held; all of the clubs put up their booths and sell a variety of goods ranging from "Farmer burgers" to "slaves." In the Queens Assembly the queen and her attendants are chosen by a panel of judges who base their scores mainly on a contestants ability to answer questions, and also on their poise. On the night before the game a pep rally is held where a dummy of the opposing team is burned in effigy, and then used to light the red and blue candles of the student body. Following this the school song and other cheers are sung. Traditions are still being formed today, an example of this is the street signs on the corner of 500 E. and 3300 S. being changed to Farmer Way and Granite Boulevard.

This yearbook is also a tradition. Throughout the years it has given students a lasting memory of their high school years.

We of the yearbook staff hope that this years yearbook will do the same.

Traditions have always been an important part of our school. Though many change and new ones are still made today, they are revered by the students, and will be remembered for years, showing that traditions are chiseled in Granite.

HERITAGE

Since Granite opened its doors in 1906 it has been rich in history and traditions. The history of our school is one that all students can be proud of. It was born through the efforts of ***B.W. Ashton,*** *and unlike other schools, it was first set up in three divisions. The next year (1907-1908), however,* ***James E. Moss*** *was made the first principal. Under the guidance of his administration, which lasted until 1913, the basketball, baseball, and football teams were organized.*

In 1906-1907 our first basketball team was organized, and in 1909-1910 placed second in state. Then, in 1908 the baseball team was organized, and it took first place. The first football team included one girl so as to round out the required eleven players. In order to play the team had to buy their own uniforms. This all paid off, however, for in 1909-1910 the football team tied for second place. Sports was not the only activity that Granite excelled in. We have the distinction of publishing the first yearbook in the state during 1909-10. Through the years it has won nationwide acclaim for its excellence in quality and continuing growth. Also in the field of publications was the school newspaper "The Granitian" first published in 1910-11; from time to time Granite has even put out school magazines.

Dr. Adam S. Bennion *succeeded* ***Mr. Moss*** *in 1913 and under his direction the school continued to grow and expand. Tennis was introduced, and a club program was initiated by the establishment of the Ag (Agriculture) Club and the Home Ec Club. Another accomplishment under his administration was the school seal being designed by Laurina Eldredge, a senior, and the "Song of the G", composed by* ***Miss Grace Trout,*** *a former music teacher at Granite.*

During its 79 year history the student body population has changed greatly. In 1906 only 53 students were enrolled, and it was not until 1909 that the first graduation excercises were held - for one student. Today the enrollment stands at about 1,050 students, a large jump from the early years of our school.

Now after more than a quarter of a century, Granite glances back at her accomplishments with pride, then confidently turns to meet the challenge of the future.

The Granite Marquee *was erected by the classes of 1977 and 1978.*

FARMER FAME

Throughout the years, Granite has had its share of fame. The Hall of Fame consists of 24 Granitian Alumni which have succeeded in life and have brought fame to our school. From Syndicated Columnist Jack Anderson, who graduated in 1940, was student body president, winning by one vote, to Gordon Jolley, who was all-state in football, basketball, and baseball. He played football for the "Runnin' Utes" and later turned pro and played for the Seattle Sea Hawks and the Detroit Lions. Until most recently, Steve Brown graduate of 1968, a Salt Lake Sportscaster for KTVX channel four news, was inducted in 1984.

COUNT IT!

It's the first day of school, and a sophomore is seen running down the front hall of the "S" building to avoid being late to class. Suddenly, he is grabbed by a group of seniors and forced over to the seal where they make him count all of the tiles that make up it's design.

Though all students, such as this Sophomore, eventually learn that it is tradition not to step on the seal, many do not know its history and meaning.

It was designed during the school year of 1917-1918, by ***Luarina Eldredge.*** *She used the acorn as the basic theme of the seal for its symbolism of greatness, growth, development, and character. The original number of the acorns that she used was the total of the numerals of the year that the school began, and the number of the students in the class of which she was a member.*

The granite rock in the middle of the seal was modeled after the huge "Granite Boulder" that the students in the early years of the school held their meetings and pep rallies around.

Placed over the boulder is an image of the Lamp of Knowledge, a symbol of the finer things of life. To this is added the Latin phrase "Sapientia Est Potentia," which translated means "Knowledge is Power."

The seal that now lies in the "S" building was left by the Class of 1925.

The Spirited Tradition Continues . . .

Homecoming week began Monday, September 16th and concluded Saturday, September 21st with the "Central Park Romance" Dance. Many events led up to the big game Friday night. The queens assembly was held Wednesday with the crowning of queen Kelly Evans, first attendant Karen VanLeeuwen, and second attendant Julie Allen. Thursday, Farmers Market was held in the boys gym for the first time in Granite's 77 year history. Some of the clubs that did exceptionally well were DECA with their slave sale, and the Losers Club which sold memberships for 13¢. To continue the spirit the lighting of the candles and the burning of the Cottonwood dummy at the night pep rally got everyone excited for the game. Friday was kicked off with the traditional parade with everyone decorating their cars and creating a lot of noise. The Alumni cheerleaders boosted spirit and helped get the new Spirit Club into the groove of things. At the game the alumni also showed support by creating the largest crowd Granite has seen in years. The forming of the tunnel by the student body on the field at half time shot spirit to an extreme high leading Granitians to a 24-16 victory over the colts. Saturday the week was concluded with the Homecoming dance. The couples enjoyed the dancing and refreshments. The great turnout ended an enthusiastic week with a bang.

FADS AND FASHIONS

How would you describe the people at Granite in 10 words or less? Preppy, punk or new wave? How about vogue? Take all of the above and throw in a pair of cowboy boots and that's it!! Granite has it all!! Fashion, it is a display of a person's ideas about themselves and about the world. The illustration of ideas comes in different sizes, shapes and a variety of fabulous colors. For instance, what is a person with an orange mohawk saying to the world? He is saying, "I am an individual!" And it is something we all express to the world at one time or another. So take it all!! The forenza sweaters, the lace up boots, and the concert t-shirts and shake it up!! What do you get? A funky, sassy look called Granite! Granite has variety and variety is where it's at!!!

Fun In The Sun

Summertime is what everyone seems to live for, strive for, and pray for. It's what every student relies on to make it through the year and what every teacher cries for by the time school is finally out. Summertime gives a warm glow and a promising air of excitement. It gives us something to look foreward to and reach for, inviting us to enjoy. Everyone wants to take advantage of that. Over the summer of 1985, students did just that. During the beginning of the school year Granite students were asked to fill out a questionnaire about what they did over the summer and here are the results.

Over the summer did you:	**Yes**	**No**
Go to Lagoon?	*71.6%*	*28.4%*
Stay in Utah?	*58.5%*	*41.5%*
Travel outside the U.S.?	*7.4%*	*92.4%*
Go on more than four dates?	*54.9%*	*45.1%*
See more than five movies?	*80.5%*	*19.5%*

Oklahoma!

This year's musical production takes us back to Oklahoma, where cattlemen and farmers do not mix. The cattlemen and the farmers have different ideas about the wilderness of Oklahoma, and the jealousy of one man can destroy what many others have learned to compromise.

The musical was performed before a colorful background on a set designed by ***Lyle Dalsing,*** *and accompanied by the orchestra of Granite High. The show excited the audience during all of its' night performances.*

The fine musical production was brought forth with the combined efforts of directors, ***Gene McCombs*** *(staging),* ***Florence Sadler*** *(chorus),* ***Pat Webster*** *(orchestra), and* ***Michelle Johnson*** *(choreographer). The production ran for three nights: November 22, 23, and 25.*

Curley ***(William Black)*** *enchanted the audience coming down the aisle singing "Oh What A Beautiful Mornin'." "Curley is strong, charming, and attractive." The Green Sheet stated, "His (William Black) greatest strength was his vocal ability, but his acting was also excellent." They also stated, "Vocally, he (William Black) appears to have talent that could take him a long way." William Black put forth all his effort in his performance and the outcome was overwhelming.*

Laury played by ***Cynthia Brown*** *also had a very excellent voice. Laury and Curley together brought out the highlights of the show when singing "People Will Say We're In Love." She was an outstanding actress showing emotion and personality throughout the production.*

Jason Wadsworth's *appearance as Jud Fry was also excellent. His anger was very effective and together with Curley, "Poor Jud" was another highlight of the musical.*

Other excellent performers in key roles were ***Andrea Holt, Clark Jensen, Stephanie Farr, Eric Boice, Tricia Sandstrom,*** *and* ***Kirk VanValkenburgh.***

Was It Suicide, Or . . . Murder!?!

Was Bjorn Falkner murder, or was it suicide? Our school play, "Night of January 16, 1939", was presented March 3 through March 5 by the drama club. Excitement was in the air, since the audience was to participate in the actual play as the jury. As the student body awaited the nights of the performance, ***Monica Simmons*** *and* ***Joyce Copier*** *commented, "Its going to be fun."*

The lead for the play was ***Jenny Englert,*** *who played the accused Karen Andre, she was sentenced differently each night because the jury members were different each night. As we watched* ***Scott Wagstaff*** *and* ***Philina Shira*** *play the part of lawyers, the audience felt the climax of the play from beginning to end each night. The play got a good response from the audience, and in the end, Karen Andre was found innocent twice and guilty once.*

Battle Of The Classes

As the tradition continues, the Student Weeks again proved to be very interesting and exciting. This year, the Sophomores tried their best during March to improve school spirit by sponsoring a stomp as well as the annual (attempt at) Sophomore assembly.

Juniors also had a chance to show their enthusiasm by sponsoring a breakfast which was served by the administration, and the Junior assembly. The King of Hearts activity really attested to the girls' ability (or lack or ability) to stay silent. They finished off their week with Junior Prom. It is hard to believe all of these happenings occurred in the same week, April 14-18.ol Seniors proved that they too, could show true Senior pride by planning many fun activities. The beard growing contest was quite popular, however, possibly the most remembered activity was the Assassin game. Many people participated in this event. Yes, this year the Seniors kept the tradition of Senior Week intriging. Senior assembly also proved to be one of the well planned productions. Everyone had the chance to get involved and have a great time-true Granitian spirit.

Granitians Show Spirit

An easy way to show your school spirit in 85-86 was to attend the many, well put together, pep assemblies.

Planned by the cheerleaders, these assemblies gave students a chance to get rowdy, and to scream and yell to their favorite cheers.

One of the most memorable pep assemblies during the year was the Christmas assembly, which was to get the basketball team and fans psyched for the game that night at West Jordan. ***Guy Thaller*** *dressed in his Hawaiian shirt and walked on stilts;* ***David Roth*** *in his shades with his shirt collar turned up, gave us all an inside look at the true personalities of* ***Coach Whiting*** *and* ***Coach Paur.***

We also got the first look at our beautiful G.H.S. Menchéz, who with their gracefulness and poise captured the eyes of the audience throughout their performance.

Towards the end of the assembly we all got a real treat, Santa and his reindeer paraded across the floor, forgetting the most famous reindeer of all, which was ***Nellie*** *dressed as Rudolph the Red Nosed Reindeer.*

Pep Assemblies like this left everyone on a boisterous high note and ready for the big game that night.

Members of the Menchéz: Don Gee, Jimmy Young, John Burk *and* ***John Knight*** *march off floor after an awesome performance.*
Clark Jensen, Merilee Bagget *and* ***Julie Allen*** *play tourists in a pep assembly.*

Assemblies Add Spice

This year there were about 15 assemblies ranging from a movie to an opera. The Music Man with his wierd instruments such as the straws, his horn, and his break-apart-violin. Then we had a movie assembly where students all got together just before Christmas and watched "Ghostbusters".

After that there was the class sssemblies: the Senior assembly and dance in February, the Junior assembly and prom in April, and the Sophomore assembly and Spring dance in March.

Next, at the end of April, we had a winners assembly to recognize those who were outstanding and also for those who were elected to Student govt. positions.

And last, but not least, the yearbook assembly was held when most of us received our yearbooks. Whereupon we immediately had our best friends sign in them. The next day, being "Yearbook Day" we all went around to different classes and fantastic places that we meet to have other friends sign in our yearbooks.

Dances Were A Ball!

This years dances were a ball! The Hello Dance kicked off the year in a true red and blue spirit that turned out to be a real success. Among the seven dances this year were the Homecoming Dance, the Sadie Hawkins Dance, and the Junior Prom. 75% of the students attended these dances this year, 25% did not, most of which were sophomores. The dances could not have been as much fun, if it were not for the efforts of Gary Clark, the student body officers and also the different dance committees who ran all the dances this year and made sure everything went smoothly.

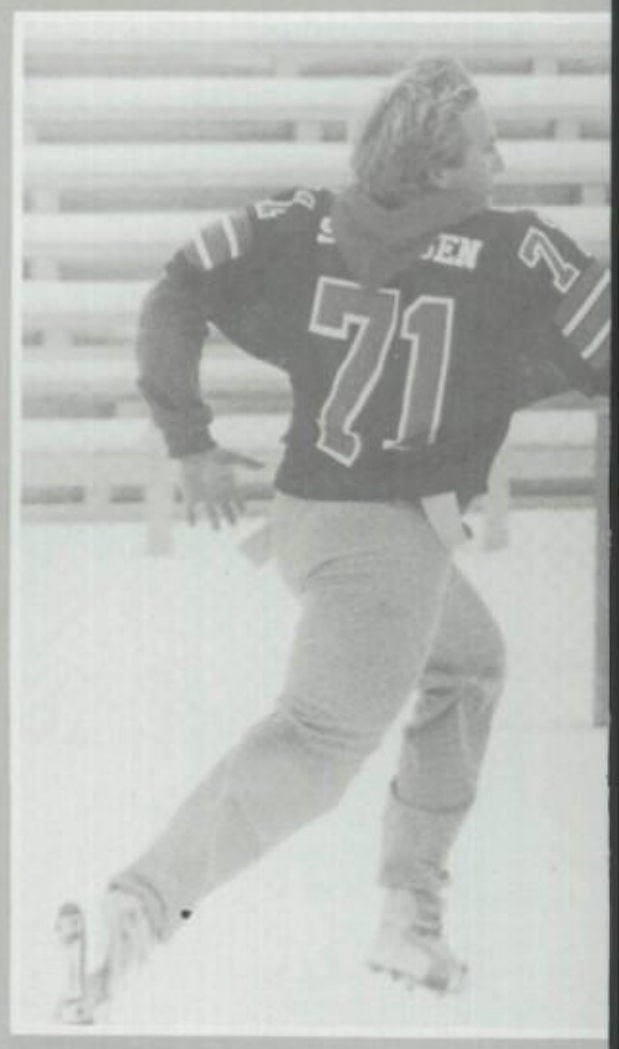
Where Did We

Hangout?

Winter Week was held January thirteenth through seventeenth. A very exciting flag-football game highlighted the week's activities. The game was dominated by the yellow team, and team captain ***Dale Sorenson,*** *who returned the opening kickoff 65 yards for a touchdown.* ***Shane Smith's*** *red team rallyed during the second half, but fell short. The yellow team was victorious 28 to 16.* ***Craig Boswell*** *designed the best snowflake for the flake contest, and won a pass to ski night at Brighton.* ***Mrs. Sunberg*** *and* ***David Clouse*** *also submitted outstanding flakes.*

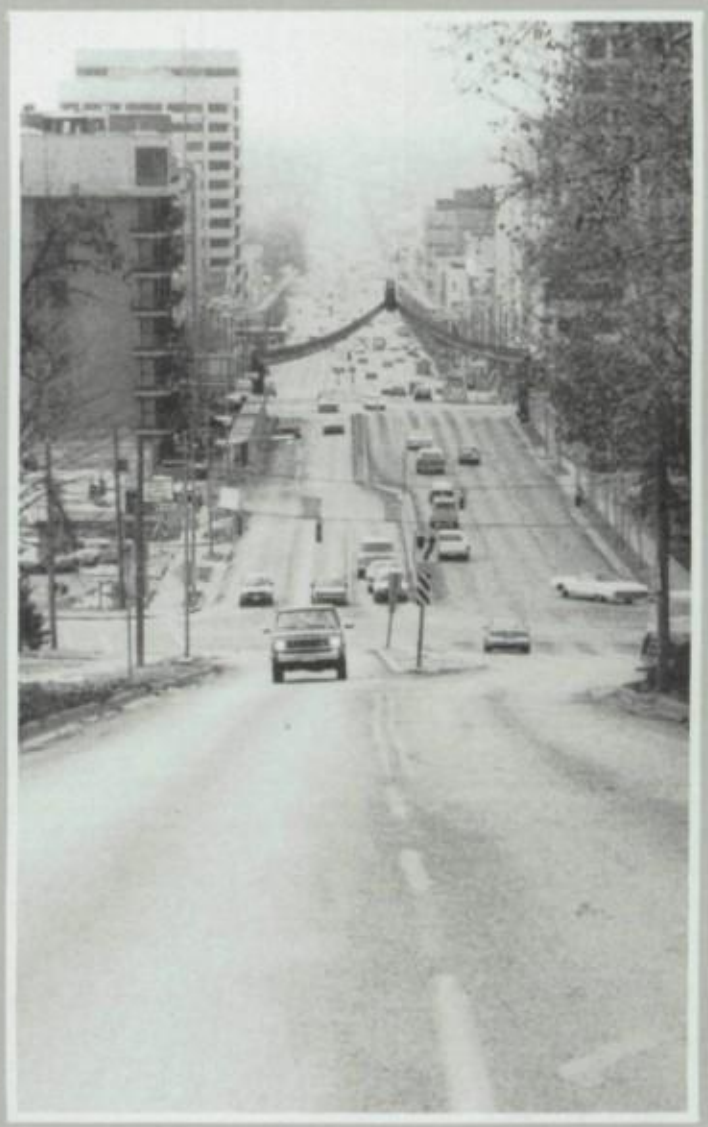
Granitians found some very interesting places to "hang out" during the 1985-86 school year. Students from Granite enjoyed the traditional Salt Lake hot spots, such as State Street, late on a weekend night; the everpopular malls, like Cottonwood and Crossroads; and the one-and-only 49th. Street Galleria. Farmers also found some new hangouts this year. McPhies Drive-In was packed with Granitians after football games and stomps. A new Burger King was built on 33rd. south near 2nd. east to compete with McDonalds. And 7-11 attracted many before school, during lunch, and after school.



Most of the flag-football *game was toughly fought at the line of scrimmage.*
Snow blanketed the campus *for many months this year.*

Dale Sorensen sweeps *to the left during the flag-football game.*
John Wells and Audrey Peterson *along with many other Granitians enjoyed listening and dancing to the music of "R.P.M.'s".*

Herb wasn't found *at McDonalds, but many Granitians were.*
Each day during lunch, *many students migrated to 7-11 for a Big Gulp.*



State Street has always *been, and probably always will be a great Hang Out.*
The 49th. Street Galeria, *a huge indoor recreation spot, provides Salt Lake area residents with a unique atmosphere for indoor entertainment.*

Halloween Brings Out Tradition

October 31 is the traditional day of the calling forth of witches and ghostly hosts. Some of our own Granitian ghouls came forth in their best Halloween attire. "I love my fellow weirdos," commented a couple of strange Halloween oddities. Those who didn't dress up had a great time watching those who did. When the sun went down and the night approached, Granitians roamed the valley with all their ghostly appeal carrying on Halloween traditions.

Granitians give blood to help those in need

The annual blood drive for the Red Cross was held November 18th in the boys gym. Many Granitians showed their spirit and helped the Red Cross to accumulate a total of 31 pints of blood. The Medical Assistance class aided in this project by taking information on the donors.

Through everyones efforts Granite was the leader in the district for the third consecutive year in total pints of blood donated.

Students Surveyed

The members of the yearbook staff, for the school year 1985-1986, decided to do something a little different in this year's yearbook. We thought that it might be interesting to write an article about the "average" Granitian. So all of you who want to be just like everybody else next year, grab a pen and a notebook and take some notes.

While listening to "Party All The Time" by Eddie Murphy on KCGL, our "average" is getting ready to go see a movie with a couple of his buddies from school. While downtown, he hopes to get a little shopping done. He plans to go to the record store and buy a ***Thompson Twin*** *tape and maybe one of* ***Chicago.*** *"Back to the Future is my favorite movie, "says our "average" to his mother, "I can't wait to see it again."*

After the movie our "average" goes to Lotsa Hotsa Pizza in Crossroads Mall and munches (you guessed it) pizza, and drinks a Pepsi. Then he says "Good Bye" to his friends (who have to go to work) and then waits for his mother to come and pick him up (his parents haven't trusted him with their car after his recent traffic violation). On the way home he thinks it might be a good idea to ask his girlfriend out on a date, so when he arrives at his home he gives her a call and they proceed to plan a date for Friday night.

Friday night arrived and our "average" is getting very excited so he decides to start getting ready a little early. After brushing his teeth with some Crest he splashes hemself with some Polo cologne and then proceeds to beg his father for permission to take the car. His father finally gives in and our "average" is on his way.

"What am I going to tell my teacher when he asks me why I didn't do my Algebra," our "average" thinks to himself. "I've got it, I'll tell him my locker got jammed and I couldn't get my Algebra book out of my locker. Or maybe I'll ask him if he wants a kitten. I know he will refuse because I don't think the kitten would get along to well with his wife." After much thought our "average" decides the latter might sound a bit precocious, so he decides not to go to class.

Entertainment

Of 350 people polled many students had their own style . . . Many Granitians listen to Rock 106 FM. While others listen to 99 FM or Rock 103. The most favorite group was the Thompson Twins, then Chicago and Alabama.

While there is a variety of tastes at Granite, a true winner for the favorite song was "Say You Say Me" by ***Lionel Richie.***

Thursday evening seemed to be the most popular on T.V. with many students choosing Cosby Show, Family Ties, and Knots Landing. When they were not watching the "boob Tube," they were visiting Crossroads Mall, and Seeing "Back To The Future," and "Rocky 4."

The most creative ways of asking someone out on a date were very varied. One way was by **Annette Passey;** *she said that she had "bought a scroll that was done in Egyptian writing and gave that to her date."*

When asked what kind of toothpaste they preferred most, the students chose Crest by 57%. Other results were:

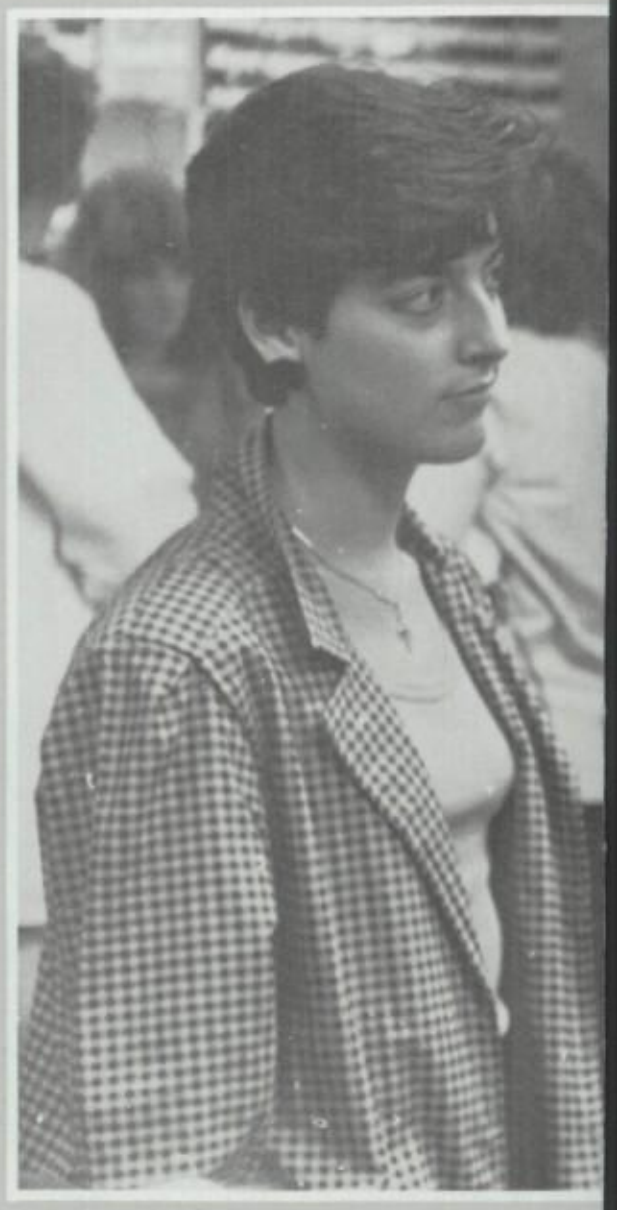
Colgate	*18%*
Aqua Fresh	*9%*
Aim	*5%*

Most of the students have "innie" belly-buttons rather than "outie". Some may not have an outie, as they answered, but do have an Audi as in a car. Here are the results of our survey:

Innies	*80%*
Outies	*12%*
Both	*4%*
Can't find	*2%*

Finally, many students drive to school to escape the "horrors of school bus riding." When asked if they drived to school, some students stated they wish they could to avoid the "life-endangering terror" of the school bus.

Students Exp. The Real World Of Jobs



As we grow older we feel the need to be independent. One way of receiving this independence is by getting a job, which shows maturity. A job also gives a student a sense of responsibility to others that are depending on him to get his work done. A job will help a student learn early in life how to better manage his money.

G. Clark and **Mr. Beckstrom** are the advisors over the Work Experience Program. Students enrolled in work experience receive up to 3 credits in the program. According to **G. Clark**. Work experience allows students to participate in a "living laboratory." What **Mr. Clark** meant was work experience allows students like **Monica Wood**, **Jennifer Stephens**, and **Jolene Stelter** to participate in the real world while still in school. Work experience in high school helps students to narrow down career choices early in life.

Spirit Of 86

While most us were enjoying the last month of Summer, the Varsity Cheerleaders and Songleaders had already begun their success at what is every spirit groups first real test, U.S.A. Camp.

Every year some awards are given at camp to the few squads that are good enough to leave an impression on all of the rest. One of these awards is called the "Unity Award." It is given to the one team that shows the most pride and unity among them. The Varsity Cheerleaders received this award as Sophomore, J.V., and Varsity Cheerleaders. This had never been done before and it was a great accomplishment.

They were also given a trophy according to their overall performance. It was possible to receive an Outstanding, Excellent, or Superior trophy. Both the Songleaders and Varsity Cheerleaders received Superior, which is the highest. These awards showed that all of the sweat and hard work paid off for them.

The Varsity Cheerleaders and Songleaders would like to thank everyone for all of their support the past year and say "We were proud to represent Granite High School."

JV's Encourage Victory

This year at camp the JV cheerleaders achieved a superior rating for their home cheer. They also were awarded a superior trophy for their accomplishments at the USA Cheerleading Camp; and contributed in recieving the unity award given to Granite High School.

Sophomore Cheerleaders Motivate Their Teams To Victory

The Sophomore cheerleaders began their first year at Granite High with great enthusiasm. During cheerleading camp, they were awarded many superior ribbons for their hard work and unity. With great effort they motivated the Sophomore teams to victory.

Losers Win Members

The Spirit Club and Losers Club were the two new clubs on the Granite High campus this year.

The Spirit Club had 25 members with, a new face at Granite, Dr. Long, as their advisor. The spirit club took the place of the pep club, without the expenses that the pep club had, the spirit club involved many more people. They cheered for football and basketball games, and enjoyed many other activities, "I love to get involved at the games" said Louisa Allmen member of the spirit club. Leree O'Niel explains of the spirit here, "It's great, "I love it!"

The Losers Club is another new club here at Granite high school with 250 members, or should we say losers? Each loser pays 13¢ (If they can afford it) for their membership fee. Gerald Wittington is the president this year, if he can pass drivers education which will be extremely hard for him. William Black, Steve Palmer, and Rusty Scott are on the committee. They have enjoyed many activities such as Tic-Tac-Toe and tag but for the first minutes of every activity the boys sit on one side of the room and the girls sit on the other side. The ones who don't know quite what they are sit in the middle. The advisors are Mr. Hess, Mr. Burton, and Dr. Long.

As Deadlines Close In Yearbook Staffers Go

BONKERS!

Deadlines, deadlines, deadlines, were the major focus of the yearbook staffers as they worked throughout the year on the yearbook. These deadlines caused a lot of stress, and to relieve this the staff held a number of parties throughout the year. The first of these was their opening social held at Sugar House Park in September. They played volleyball, ate hamburgers, and got in a massive water fight. **Sheri Watts** was dumped into the river by **Robert Stoll, Jeff VanMinde,** and **Lee Voung,** thus touching off the water fight. In February, they ate a six foot sandwich for Valentines Day during lunch. When **David Glick** and **Tammy Smith** went to pick up the sandwich they found it wouldn't fit in the car! The solution? They stuck it out the window.

The majority of this time though was not used on parties but, was spent working on their pages. The copy and layouts had to be prepared and checked, and the photos had to be taken and developed.

Due to the heavy work load **Kristen Young,** the layout editor started pacing the halls, with glazed eyes, balancing the hall pass on top of her head; sometimes **Debbie Hansing** could be found accompanying her. Meanwhile **David Glick** Editor, **Tracy Shimmin Asst. Editor, Tammy Smith** Copy Editor, **Valerie Stoddard,** and **Tim Henderson** took a break and played hangman using such words as panchromatic and Spotted Rocky Mountain Fever.

All the staffers knew though, or at least had a hunch, that all of this work would pay off when they would be able to see their pages and watch the other students admire them and sign each others yearbooks.

Monkeying around, Yearbook staffers *are from top to bottom: Trac Shimmin, Demos Torres, Mark Sanders, Lee Voung, David Glick, Robert Stod dard, Leslie Yedinak, John Wells, Valerie Stoddard, Craig Matsura, Tim Her derson, Gary Nordhoff, Tammy Smith, Angela Quinones, Steve Herderso Stephanie Greenhagen, Monica Simmons, Travis Tenney, Jennifer Frehne Kenny Watanabe, Steve Palmer, Todd Duncan, Margaret Witbeck, Mr. G Clark, Liss Schyndel, Michelle Mickelsen, and Kristen Young.*

The major goals this year of the Granite Ski club were to improve their skills, and become much better skiiers. To accomplish these goals, their advisors Mrs. E. Anderson and Mr. Edwards helped teach the students some of the different techniques of skiing.By following their instructions, the students learned many new skills.

The members met almost every Saturday and went to a number of ski slopes including Brighton, Alta, and Snowbird. Because of their dedication, the members of the ski club greatly improved their skills, and had a lot of fun.

Problems, Problems, Problems, Thats What We've Got Debated The Gifted And

Talented Class

Here at Granite, there are three clubs which are all closely related. These groups are Debate, Future Problem Solvers, and Gifted and Talented.

These programs allowed students to be independent learners and to produce their own knowledge. Students were selected by their G. P. A., test scores, teacher recommendation, and their task commitment. That is, a student should have a certain subject or project in mind when applying to take the class.

The number of students for these groups are limited to just a few people. Ordinarily there are 15-20 students in these groups but this year the numbers were exceptionally small.

These programs also included units in creative thinking and problem solving to help the students be more productive.Student projects ranged from novel writing to architectural planning.

MARCHEZ

Since its beginning in 1984, the Marchêz have continually improved in their marching. Even though this years group was the smallest, consisting of only 14, they proved they were the best by receiving the 1st superior rating at the U.S.A. camp up at Utah State University. Of all the organizations on campus few other groups worked as hard as the drill team. The Marchez put in countless hours, beginning during the summer at 5:30 a.m. and at 6:00 a.m. during most of the school year.

"It's hard to get up at 4:00 a.m. (to be here at 6:00) but in the end it's all worth it," said ***Julie Allen,*** *the Treasurer of the Marchez,* ***Joyce Copier*** *said, "We've gained many friends, both between ourselves and at other competitions." And 5, 6, 7, 8!

Dancing their way into fame, the Granite High Dance Company became very well renowned for their fine talents that they displayed throughout the year.

One of the ways that they displayed their talents was by performing at the pep-assemblies. Their dancing in the assemblies helped to raise school spirit, and also to introduce the art of dancing to many of the students.

All of their time, work, and sweat paid off at the Dance Concert held in the spring. The audience was thrilled by the variety of dances performed, ranging from ballet to Jazz and modern dance. This was their finest concert, and both expertise in the dancing and in the choreography was apparent.

Many members of the company also danced in the school musical "Oklahoma!", which was choreographed by ***Michelle Johnson*** *their dance instructor.*

DECA

Helps Prepare Students For Life.

It was another great year for the Distributive Education Clubs of America at Granite High. Under the direction of Gary Clark, the members of DECA kept themselves busy with monthly activities and fundraisers such as selling Happenings books and chocolate Santa Clauses.

Several members of the club, including officers, were given the chance to travel to Cheyanne, Wyoming, for the Western Regional Leadership Conference which was held in November. They attended seminars on business and free enterprise as well as participating in the fun activities that were planned for them.

Behind The Scenes

The stage crew and Ushers club did a great job taking on important behind the scene jobs.

Oklahoma was a challenge for stage crew as changes of scenery and elaborate lighting required concentrated effort. Concentration was a must for each stage crew member as movement and change of setting dominated the show. One member, in charge of lights, said, "Following the performers with a spotlight was a non-stop job all the way." Another member in charge of audio said, "Keeping all the pocket mikes at the right level and the orchestra not over powering the singers kept me hustling."

Another behind the scenes group, ushers, selected from good student athletes inaugurated a new practice. They closed doors in the auditorium as assemblies started and would not let late students enter. "It was frustrating at first," observed one member, "but when kids found out that we meant business, they came on time and got seated."

The stage crew and ushers club did a great job this year helping to support Granite High by working behind the scenes. Thanks guys!

To Be Or Not To Be

Every year the Drama Club brings together a select group of students interested in the acting profession. One act plays, humorous readings, and speech competitions are just a few of the daily activities they participate in. They are also involved in many district and state Competitions. The students all agree that drama is a lot of work but the rewards after a performance makes the effort worthwhile. ***Mr. McCombs*** *enjoys watching the drama talent at Granite each year.*

Last year they tied 3rd for state, this year they tried to take 1st place. In the Intramurals Chess Tournament, ***Bill Clark,*** *Senior and Chess Club President, took 1st place,* ***Hugh Black,*** *Sophomore, took 2nd place, and* ***Charles Reynolds,*** *Senior took 3rd. During this past year they played such schools as Olympus, Cyprus, Woodscross, Taylorsville, and Granger.*

Each year the BIGGEST event for the Chess Club is the State Chess Tournament. They were given 3 hours for every grueling game, and to top it off, they had at least 8 games to play, each! "Where did they get all this time?", you ask. Well, they had 3 days to finish, and this year the State Tournament was held at "Awesome Granite High" in the illustrious words of ***G. Clark,*** *on March 21st-23rd.*

Two clubs that consist of students who want to learn a new language are the Computer Club and French Club.

The Computer Club had good luck figuring out the art of making a machine do what the student wants it to do. Along with the tedious task of trying to finish assignments, there's also a quick moment of some video game playing. They copied and played both educational and fun games, that tested their strategy and skill.

French Club had to put their noses to the grindstone to master the romantic language of France. **Philina Shira** commented, "We really had to work hard for a good grade, because **Mr. Webster** is a tough cookie!" As the year rolled on, so did the memory of the trip to a french restaurant. The students had left the busy limelight of the classrooms to venture forth into a world of scrumptious food and drink. Laughter was heard throughout the restaurant as the students tried to name the items on the table in french.

. . . Parties!

The German Club is one of the most prestigious clubs at Granite High. This year it again was found to be among the largest and most active clubs. It also has a reputation for having the most activities, and it has again achieved that. Though the activities that the club has are fun, people in the German Club also have educational experiences from them.

The year's exciting activities began in September as the club went to Snowbird for the annual Oktoberfest. They enjoyed a German breakfast on their way up to Snowbird and some continued their cultural experience by speaking German all day.

In October the club held a Halloween party where ***John Winkelkotter*** *won the prize for best Jack-O-Lantern and* ***Angie Fern*** *won best costume. In November they went tubing down the hills and were thawed out afterward with hot chocolate.*

In the month of December, they saw a slide presentation on Switzerland by the U. of U. Travel Club. They also had a Marzipan party where they exchanged white elephant gifts.

For January's activity, they went ice skating at the Triad Center and ate pizza. In February they went to the 49th Street Galleria. In March they had a video/pizza party. In April they did a "Sub-for-Easter-Bunny" for sick children. And in May they finally accomplished their hike to Doughnut Falls which had been postponed for almost two years.

To end the year in June, they had a picnic at the Cottonwood Complex. Through thick and think, hot and cold, wind and rain, and through the dark of the night, one dedicated member appeared at every activity; this was ***Grisswald,*** *the mascot.*

This years Spanish Club started off the year with the annual selling of **Belka's** famous tacos at Farmers Market. They sold over 100 tacos, raising over 100 dollars to provide the club with funds for parties in the student lounge, bowling and a golf tournament, and still had enough money left over for classroom supplies. These fun events are the reason why the Spanish Club has such a large membership, having over 180 members. Out of these members four were chosen for the presidency of the spanish club. They are **Dave Burgener,** President; **Matt Dill,** Vice President; **Hiedi Jenson,** Secretary; and **Brian Kleiven** as Historian. The selection of these four was unique, in that they were elected by Belka's early morning system. Anyone that shows up at 7:00 AM is usually in the Presidency.

As Players Put Their Shoulders To The Grindstone They Learned You Gotta

Love It Baby!

Our football team this year did an outstanding job. Our team began with a win against East. Granite played a fantastic game and came out on top with a score of 10-7. During the second game, the Granite offense out-played the Granger offense in total plays. Our defense also outrushed the opposing defense. Despite these advantages however, Granite lost with a final score of 7-12. As Granite played Kearns, Granite dominated in yardage gained, but unfortunately, were defeated in the last two minutes of the game with a score of 19-21. Our Homecoming game finally arrived and we played against undefeated Cottonwood. Our varsity team was determined not to let Cottonwood win. With this determination, Granite beat Cottonwood with a final score of 24-16. For our next game, Granite played Cyprus for their Homecoming. Our team let Cyprus enjoy their Homecoming during the first half before beating them 14-6 in the second half. In our game against West, Granite was caught up in the winning spirit and played an outstanding game that was totally dominating, with a final score of 53-6. Our final game was against Olympus. This was the big game which would give us a chance at state, but unfortunately fell short with a final score of 15-30. The Mighty Farmers ended the season with a 4-5 record which was well fought for and displayed a great amount of potential as well as a lot of unity.

Still Out On Top!

The Sophomore and Junior Varsity football teams at Granite were fantastic this year. They put many, many hours into practice and each member dedicated themselves to the game. They could be seen running around the field all summer long. Through rain, sleet or blazing sun, these devoted guys gave it their all.

From the first game to the last, the players kept their spirits high and even after the bitter disappointment of losing a hard-fought game, they held their heads up and became more determined for the next game. Their determination was not in vain because many times these young men experienced the joy of victory and coming out on top!

Both teams have expressed their appreciation and gratitude to the student body for their support. "It is awesome to have lots of fans at the game. When you look up and everyone is cheering it gets you really pumped up." said Mario Caliguiri. All through the season, we had a terrific crowd at all of the games. This was a great help to the teams throughout the entire season.

Although this sometimes treacherous sport seems to be the cause of many bruises, bumps and broken bones, most will agree that this is a game full of excitement for both players and spectators.

Mark, Get Set, Go!

This years swim team at Granite High lacked members but not talent. Although, their numbers were few, their endless ability helped to lead them to many victories. Each member of the team has a strong event that they are exceptionally good at. When all the members worked together as a team, they were virtually unconquerable. For example, take ***Lee "Quang" Vuong*** *with his breaststroke,* ***John Wells*** *with his backstroke,* ***Chris Duffin*** *with his butterfly and* ***Scott Beven*** *executing the freestyle, and put them together and you have one quick relay team.* ***Karen Maw*** *and* ***Rolana Stevens*** *are excellent at the backstroke and butterfly, also.*

Another key factor to the teams success was their Coach, ***Pat Hayes. Pat*** *is a student at the U of U who is an outstanding swimmer. He holds many national college level swim records. He wanted a job that would not take him away from swimming and coaching at Granite was just the answer.*

Granite Breaks Losing Streak

The Granite High Basketball team started off this year with a bang. The team fought long and hard to make it a winning year. Throughout the entire season, no one could tell from one minute to the next who would win the game because whether a game was won or lost, it was always very close.

This years team had to overcome some big obstacles in order to get as far as they did. First of all, they made a fantastic comeback considering a very discouraging record the previous year. Also, our team this year is very young. Only 4 seniors were on the team which left a lot of responsibility on the juniors, who did a remarkable job. Despite all this, our team deserves a lot of credit.

Although the team did most of the work, ***Coach Whiting*** *had a major part in building the players confidence and teaching them the skills necessary to become a winning team.*

Basketball Is Looking Up!

This years Junior Varsity and Sophomore Basketball Teams have shown a lot of competitiveness. They had a better record at the beginning of their season than any Sophomore or Junior Varsity team has had for five years. With two Juniors strictly playing Varsity, the Junior Varsity Team still had quite a successful season. A number of the games that the Sophomore Team lost were in overtime, this shows their ability to strive.

They sold Christmas candles as a fund raiser to earn the money needed to get sweats. Everyone on the team wore their sweats to each game, improving the attitude and appearance of the team. This also helped them to appear as one unit. Wrestling: A Game Of

High Stakes

A crowd watches a match of strength, but few understand the many aspects of the wrestlers and their sport. Diet, practice and pain became part of their schedule.

After the last football touchdown, wrestling practices begin. For two-three hours every day, and the sacrifices of Saturday tournaments are to determine the ability of the wrestler. These practices involved running, weight lifting and the mastering of situations. During every week a 'wrestle-off' is held and the best of the twelve weight divisions is declared.

Diet is a part of the wrestling strategy. Depending upon the person, weight must be lost or even gained while muscle condition is maintained. The ability to follow a diet is based upon will power and the desire to win.

Wrestling is a quest of a challenge to improve mental awareness and physical abilities.

Sticks It Out

This year Granite got off to a slow start in hockey. The team was formed one week before the season began. Unfortunately the hockey team had to fold in the middle of the season. The money rates were high, and they lacked players, but most of all they lacked the support of other students. "We would like to thank the fans who did support us!" Volleyball Sets The Pace

This years' volleyball team struggled through a disappointing and injury plagued season, and emerged with a five-win, ten loss record. That record does not include the victories at the annual tournament at West, which took place in September.

Despite a losing record, the team showed spirit, unity, and talent. Granite was led by senior co-captains ***Janice Margetts*** *and* ***Desda Hepple.*** ***Joyce Copier*** *was voted the most valuable player of the season.* ***Janice Margetts*** *was honored as the best offensive player, and* ***Shauna Gardner*** *was the outstanding defensive player.*

Tennis Hits Back

This year the girls' tennis team had an enjoyable season. They did well, and finished fifth place in region. They put forth outstanding effort to gain this position.

"All the girls played with a lot of sportsmanship, zeal, and skill, representing Granite High in an exemplary manner," said **Mr. Petersen.**

We'd like to congratulate the girls on this great accomplishment!

Gymnastics

The gymnastic team this year started with six members, but with the rigorous schedule and injuries it soon diminished to two. Each morning they had to be to school at six for practice.

They practice for an hour and twenty minutes before school with Skyline. Skylines' team also has only two girls.

The results from their practice are very rewarding, though. They represented Granite with great enthusiasm.

Indoor: Plays For The Kicks Of It

This year's soccer team season started very early. December was the first indoor game. The team started practicing in the morning for an hour before school started. Indoor soccer has two teams, a varsity and a junior varsity, both did good in their divisions.

Outdoor soccer started in February, practicing after school in the gym, then moving outside in the 30 degree temperature. The soccer team has a tradition every year, it's called "Hell Week," they run 30 miles a week for a fundraiser. They also practice at the same time. The soccer team played rivals such as Granger, Olympus, and Cottonwood. They did well as a 4-A team.

Putting It Together

When you look back upon the past year at Granite High your memories are filled with traditions, everything that Granite stands for has been passed down through the years and kept alive by faithfull Granitians. That doesn't mean that Granite never changes, many changes occured during this year because of our Senators.

Our Senior, Junior and Sophomore Senators combined, seek out what needs to be improved in our school and make the necessary adjustments to keep our school up to date. This years Senators were in charge of putting the "G" Book together and making needed changes in our constitution, they also helped other officers in planning activities and they helped with the election of next years Senators.

At Granite High *it has always been, that to be a Senator one has to be an outgoing and a determined individual. This year our Senators lived up to that tradition.*

This years Senators *were:* ***Senior Senators:*** *Janice Margetts, John Hatfield, James Overman.* ***Junior Senators:*** *Teresa Hutchings, Claudia Memmott, Nancy VanDenBurghe.* ***Sophomore Senators:*** *Steve Newmen, Myrna Finau, Tammy Rassmussen.*

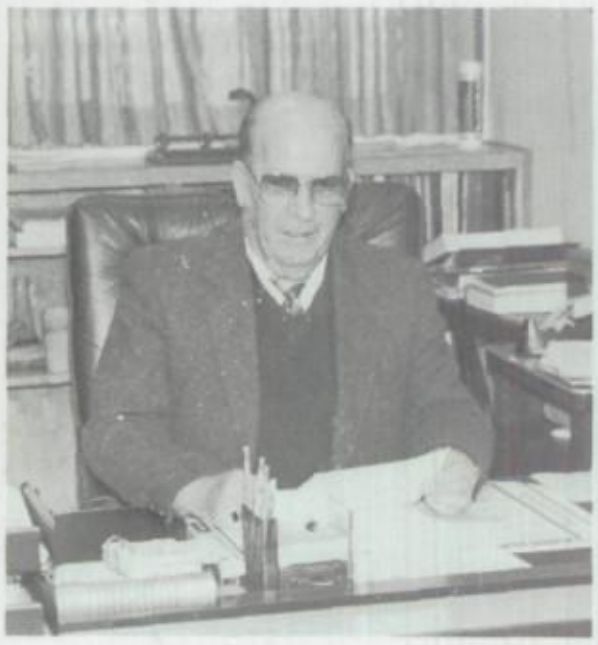
Behind The Scenes

Long, Adds New Face To Administration

This year at Granite, the familiar faces of **Mr. Hess** and **Mr. Burton** were joined by a third, not so familiar face. Together, this administrative trio patrolled the halls and controlled the behavior of the students at Granite.

The new man on campus was **Dr. Louie Long.** He left a coaching position at Olympus to join the Farmers and was quickly recognized by students as a highly respected figure of authority. Dr. Long brought fear to those who roamed the halls but most students were able to see that inside his mean exterior, Dr. Long is really a very nice guy.

While the students of Granite High are doing their daily routine of going from class to locker, the secretarial staff is busily working on the organization of the school. Together the members of this elite group work hand in hand to keep Granite on it's toes.



Mr. Burton is the Vice-principal in charge of scheduling and testing
As part of his duty, Vice-principal **Dr. Long** takes care of attendance at Granite High.

Principal Mr. Hess is the authority in charge of making sure the school runs smoothly.

Dr. Long, Mr. Hess and **Mr. Burton** are trio that make the executive decisions of school.

Eva Jane Crosland *works hard to keep things in order. This is her seventeenth year at Granite.*

Karen Henninger, Naomi Gardner, Eva Jane Crosland, Hilda Fabini, Louise Williams, Joyce Powell, *and* ***Erveen Wyss*** *are the fantastic ladies responsible for maintaining order at Granite.*

Although a lot *of work is required,* ***Hilda Fabini*** *keeps things running smoothly in the counceling center.*

Fantastic

GHS teachers have shown a lot of school spirit. They have been teaching long enough to understand and appreciate our school. There are 15 teachers who have been teaching at Granite for 14 years or more. These teachers love Granite enough to stay year after year - constantly contributing to Granite High.

In general, teachers at Granite are very well educated. The majority of them attended the University of Utah or BYU. Three members of our faculty have doctorate degrees: **Dr. Hall, Dr. Hunter,** and our new Vice Principal **Dr. Long.** When asked what they want their students to remember most, the teachers responded:

"All energy comes from the sun." **Brad Goffe**

"Always give it 100%." **Bruce Brunsvold**

"Become well-rounded." **David Oakeson**

"We will support each other regardless of victory or defeat." **Sam Arishita**

Teachers Strive To Make Granite The Best

This year we decided to do something a little bit different in the yearbook. We asked the students, as well as the teachers, which teacher they thought deserved the most recognition. The results were very close because of all the great teachers at Granite, but here are the results: ***G. Clark*** *was selected by the teachers. He has been teaching for 12 years, five were here at Granite.*

It is no wonder why ***G. Clark*** *was selected. He is in charge of the Student Body Officers, Yearbook, Marketing Club, morning announcements, visiting students on work experience, and also teaching math in afternoon school.*

What does ***G. Clark*** *think about this recognition? "I feel it is a great honor and privelege. It is a truly humbling experience!"*

Mr. White *was selected by the students as the teacher that deserved the most recognition. He has been teaching 28 years, 18 of which he has been on the Granite staff.*

Mr. White *thinks Granite is the best school because, "The young people are practical and down to earth."*

One of the most important things, he thinks, is to always try and be fair. Also, to work with the kids on their grades. "I don't give grades," says ***Mr. White.*** *He thinks it is what one does that determines his grade-not what one didn't do.*

When asked what he thought about being chosen as the teacher that deserves the most recognition, ***Mr. White's*** *response was: "It is a great honor to be chosen and there are other teachers that are worthier."*

Teachers, ***Mr. White*** *and* ***G. Clark*** *discuss the "Superiority of Granite High!'*

Making a Difference

*The cooks, custodians and the PTSA made a difference in '85 and '86. The PTSA provided us many services in ways such as the reflections contest, career ladder day, a stomp, critical issues conference, and they gave two scholarships out at the end of the year. Their goal was to aid and further the objectives of the school. They were led by **Pat Evans,** their president. The cooks and custodians kept the students fed and the halls clean. They all did such a great job that sometimes the students took them for granted, but we are truly lucky to have them. The manager of the cooks was **Charoll Wilson,** and the head custodian was **Monte North.***

Spirit Of The Mighty Red And Blue

The "awesome" spirit that is around Granite High is one trait that Granitians are known for. Throughout the year, our fans could always be seen cheering their team onto victory.

Through rain or snow, the Granitian pride could be found as the mighty Farmer fans filled up the bleachers each week at the games. An outstanding play or a bad call by the referee never went unnoticed. As the masses of people stood, cheered, yelled, and (of course) waved their white Farmer towels.

At the end of each game, win or lose, all the Farmers left with a feeling of loyalty and pride for their school. They never lost the hope of a win, and the enthusiasm always carried over to the next game.

Although those games will never be replayed, and the year is over, the good memories, true friendships and the "Spirit of the Mighty Red and Blue" will linger in our minds forever.

Juniors In Action

Junior Prom has always been one of the most formal dances of the school year.

The tradition was carried on once again this year by the Junior class officers ***Kyle Nielson*** *(President),* ***Barbie Nesson*** *(Vice President), and* ***Sherri Leibelt*** *(Secretary).*

This year the dance was held at the Capitol Building on April 18, 1986. Girls were adorned in an array of rainbow colors ranging from romantic white to sophisticated burgundy. Guys dressed in striking tuxes with cummberbunds, helped to compliment this festive occasion. Excitement was added to the air by the band "Escape," as they played modern music for the dancing couples. It was one of the best attended dances in years.

The First Epistle Of The Sophomore Date

1. *In the beginning our Forefathers created the High School.*
2. *And the school was without form and void. Darkness was upon the halls.*
3. *And our Forefathers said, let their be a weak and inferior class.*
4. *And they came to be known as Sophomores.*
5. *And these Sophomores had the same wants and desires as their superiors, known as the Juniors and Seniors.*
6. *Low and behold not the same Mannerisms and Methods.*
7. *And the Sophomores way of dating was created. And it was without form. As all Sophomore tactics thereafter would be.*
8. *And stood Jashua, Sophomore Class President. His knees quivereth with anticipation of calling Sheebah for the proposal of his first date.*
9. *He dialith once, but his courage doth dwindle. So he strengthen his courage by consuming the beast of the earth known as the Big Mac.*
10. *As his courage strengthens he picks up the modern day messenger pigeon know as the phone and he dialeth again. The phone rang for what seems as eternity.*
11. *And it rang for forty rings and forty dings.*
12. *And the phone is answered. And to the women he sayeth, doth Sheebah be there? Unto Jashua the women said, doth thou knowest it is 3:00 in the morning? Unto the women he said "OOPS."*
13. *And this women of advanced age realizing that she was dealing with a Sophomore awaketh Sheebah.*
14. *Unto the phone Sheebah arriveth. And to Sheebah, Jashua sayeth, doth thou have a date to the dance?*
15. *Sheebah spake, NAY.*
16. *And Jashua sayeth, In the midst I have not been blessed with the opportunity or Drivers Ed. yet. And you being 2 months older than I, have experienced and partaken of the Drivers Ed. course and posses what is known as the license of drival. Will you thou Sheebah, taketh me to the dance?*
17. *And the Sophomore date was created.*

Band Auditions And Is Accepted To Play At

Disneyland!

This years band consisting of talented individuals, was chosen out of many to perform at Disneyland. They weren't able to just go though, they had to try out by auditioning, and then were invited. Usually they performed at the Mountain States High School Festival in May, but didn't go this year because it was cancelled.

The band also played in all of the home football games, to celebrate the Christmas spirit they played at the annual Christmas Concert. They had a Christmas party along with the Orchestra and Jazz band, at a rented club house. They talked about the up-coming tour to Disneyland and played pool along with other activities.

The officers of the band were ***KyleMarchant,JaniceMargetts,*** *and* ***Jason Wadsworth,*** *these three led the band on.* ***Jason Wadsworth*** *with his outstanding talent, was chosen as the music Sterling Scholar for the school.*

For the band to accomplish their goals and become the best they were capable of being, they often met in practice groups at six o'clock in the morning and after school so they could get their music perfected.

The pep band consists *of members of the Concert Band. They played at all of the pep assemblies and home basketball and football games held throughout the year.*

Jazzing it up, *are a band quartet consisting of* ***Jason Wadsworth, Scott Milne, Bill Clark,*** *and* ***Calvin McAllistar.*** *Here they are playing at the Christmas Concert.*

The Mixed chorus members sing *enthusiastically at the annual Christmas assembly.*
Mrs. Saddler has *a great time as she plays the piano for her class. She is a real attribute to the music program at Granite.*

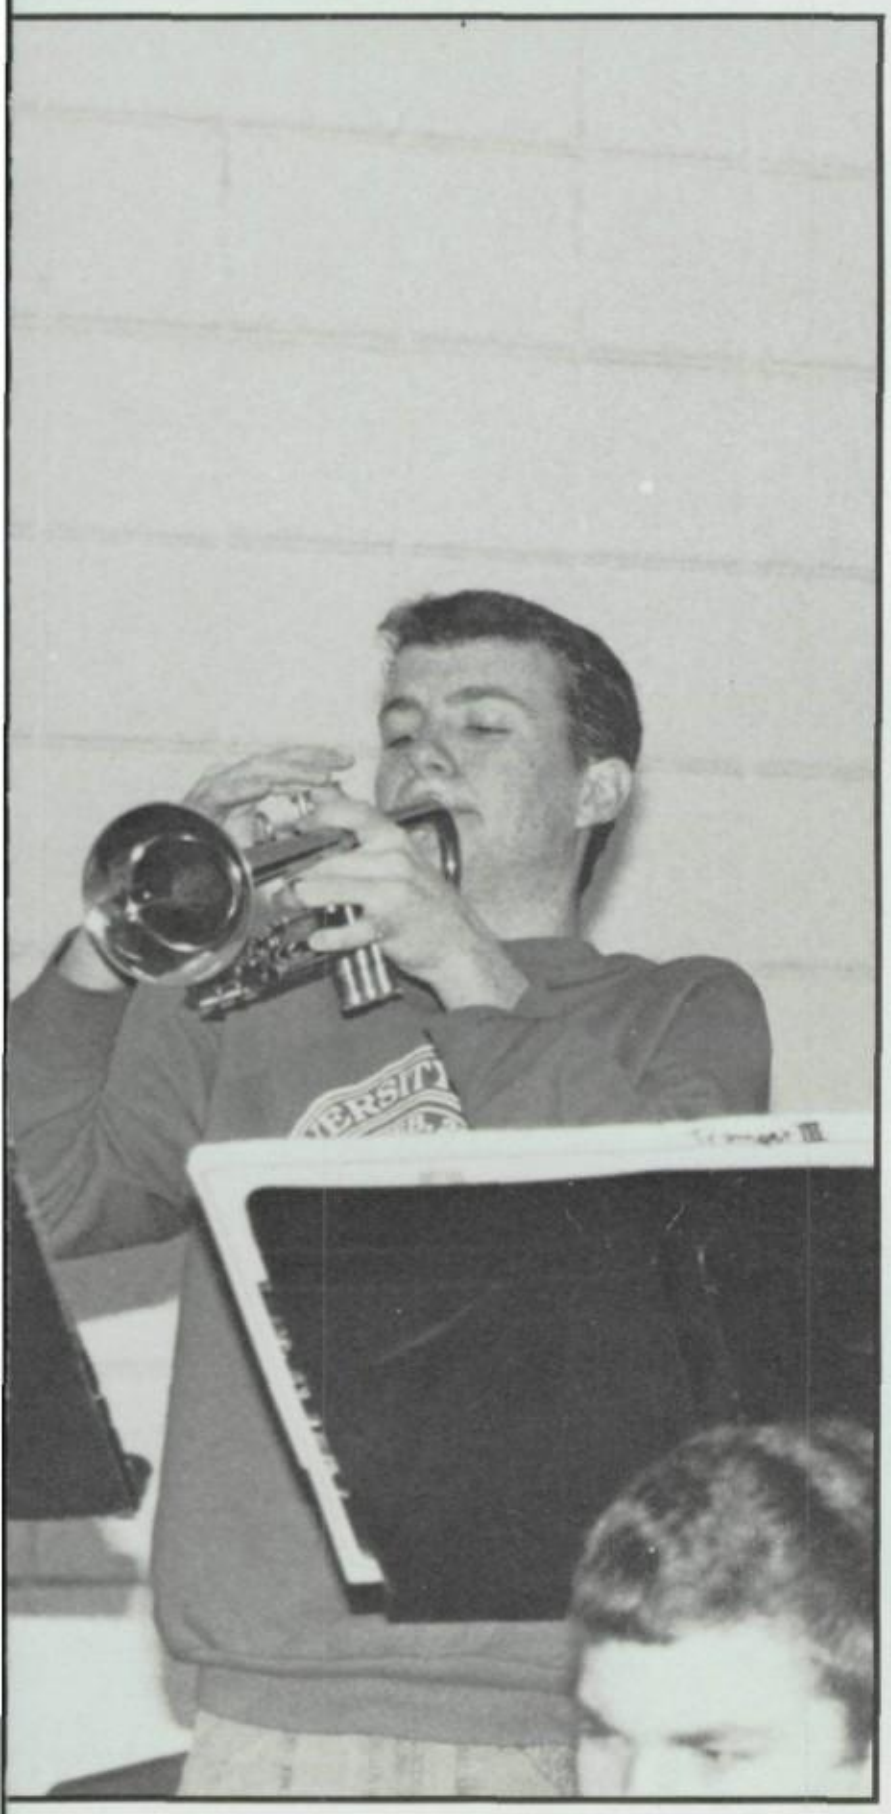
Mixed chorus members are, first row: *Tara Holt, Tricia Sandstrom, Venus Moser, Amy Ipson, Lonnie Twitchell, and Robin McGuliarra.* ***2nd row:*** *Fumiha Osawa, Tonja Marchant, James Ballou, Jerry Sellers, Lauren Stephenson, an Marj Ragin;* ***top row:*** *Camie Christense Kathy Kelson, Charles Thompson, Tra Stadtfeld, and Flo Sadler, advisor.*

Music Groups Strive Hard

The Jazz Band at Granite this year was one of the best we've had in a long time. They worked hard to become as good as they were and this took much dedication on the part of each member. They proudly performed at the games and pep assemblies as well as at the Christmas Concert.

The Mixed Chorus performed equally as well in the Christmas Concert. This choir was made up of only sophomores, either boys or girls. They were directed by a very talented teacher, ***Mrs Flo Sadler.*** *She taught them voice and breathing control as well as performance numbers. Many of the mixed Chorus members go on to be in Concert Choir or Madrigals during their next two years at Granite.*

Jazz band members Front row: *are Ricky Meyer, Russell Scott, Troy Wooley, Jed Lyman, and Cindy Brown.* ***Middle Row:*** *Mr. Webster, Jason Wadsworth, Calvin McCallister, Ken Hallender, and Kenda Powell;* ***Back Row:*** *Danny Mills, Scott Milne, David DeVisser, Scott Bevan, and Kyle Marchant.*



yle Marchant concentrates *on his practice. ard Work on everyones part is what makes the zz Band a success.*

Calvin McCallister practices hard *each morning so he will be able to perform well.*

Concert Choir Combines With Other Choirs Of The District For A

Veterans' Show

*During the "85-86" year, the Concert Choir, under the supervision of **Mrs. Sadler,** performed in many exciting places.*

Veterans Day Concert on November 11 was the choirs' first performance. The program brought Granite District's eight high school choruses together. Combined, the group numbered 800 voices. One member, impressed with sheer numbers, said, "It's one of the most exciting activities I've ever participated in."

*Several rehearsals brought them together, and students had the opportunity of singing under the baton of different choir directors. One member of the group commented, **"Mrs. Sadler** has a way with everyone, she is very positive and encouraging in everything she does." The highlight of the event saw the Twenty-Third Army Band accompanying the choir's singing of "Battle Hymn of the Republic."*

For the Christmas season, the group sang at a variety of places, such as the Triad Center, Symphony Hall, elementary schools, shopping malls, and at the Assembly Hall on Temple Square.

They also participated in a Christmas concert at Granite High on December 17. On March 17-23 the concert choir went to California on tour and performed at Disneyland, which was the highlight of the year.

Madrigals Go Mad

During the Christmas season, the Madrigals were busy practicing and preparing for their many performances. They had great success in bringing out the Christmas spirit in all who heard them. **Mrs. Sadler,** their director, kept the Madrigals busy as they traveled to many exciting places such as the Cottonwood Mall, Temple Square, and to many Hospitals and churches. The Madrigal officers, **William Black,** President; **Allison Smith,** Historian and Secretary; and **Brenda Colby,** Treasurer; combined their talents to make the Madrigals successful. In early March, the Madrigals were able to travel to California were they had the opportunity to perform in Disneyland in front of Small World. **Stephanie Larson,** one of the Madrigals alto's, said that performing at All-State and in California were the highlights of the year. After singing at the disabled center, **Clark Jensen,** an outstanding bass, said that "it was a moving experience and it made them realize how lucky they are to have healthy bodies." During the Christmas holidays they did 29 performances in 19 days. This took a lot of practicing and working together. But being the close group that they were, they were able to do an outstanding job. At All-State, the Madrigals worked under **Dr. William Ramsey,** the great composer. This was a great learning experience for them. Thanks to he Madrigals for a great year!

Madrigals Tammy Hansen, Kelly Evans, Brenda Colby, William Black, and **Kirk VanValkenburgh,** dedicate much of their time practicing for their many performances during the Christmas season.

The Madrigals for 1985-1986 are: **1st row:** Mrs. Sadler (their director), Tammy Hansen, Bill Clark, Audrey Wood, David Roth, Karen Vanleeuwen, William Black, Brett Knight, Allison Smith, Jason Wadsworth, and Brenda Colby, **2nd row:** Denise Solomon, Doug Stagg, Celeste Matz, Kirk VanValkenburgh, Kelly Evans, Clark Jensen, Stephanie Larson, Rusty Scott, Andrea Holt, Randy Wright, And Christine Clark, (Pianist).

***Partners Andrea Holt** and **Randy Wright;** and **Allison Smith** and **Brett Knight,** perform at the annual Christmas concert.*

Orchestra And Staters' Let Their

Talents Shine

Every year a select group of juniors are chosen to represent Granite High at Boys' and Girls' State. During their exciting week at Utah State University, they learned a lot about the way governments function. To accomplish this they ran for offices, had campaigns, and held elections.

While increasing their political awareness, they made new friends with students representing other schools in the state. These friendships gave them the opportunity to talk over common problems and find ways to correct them.

Leaving the conference was difficult after the good times they had, but they returned with fresh ideas and a new outlook on our system of government.

The Granite High orchestra played an important part in the musical education of the students. Under the direction of ***Mr. Pat Webster,*** *who has taught here for three years, the orchestra took part in the production of our musical, Oklahoma. They also performed in the annual Christmas concert.*

This year the orchestra had an added talent, this was ***Ingrid Hausmann,*** *a foreign exchange student from Germany. She feels that being in this year's orchestra has been a lot of fun and a good learning experience.*

At the end of the year the members of the orchestra took a trip to Los Angeles, California. They had a great time, including many waterfights. While there they soaked up the sunshine and really enjoyed themselves.

Nose For News

The newspaper staff worked hard this year to make the newspaper the best ever. "Being on the newspaper staff really helps with public relationships," says **Diana Zermeno.**

This year the newspaper staff has a new advisor, **Mr. T.S. Roach.** They changed many features of the newspaper - trying to make it more interesting. Some features that were added include: movie reviews, book reviews, record reviews, crossword puzzles, more editorials, and Dear Donny. They even changed the form, making the newspaper more like the **Deseret News.**

"Journalism is an excellent experience. It helps you learn to meet time deadlines - something you will be doing the rest of your life!" says **Mike Hankison.**

The newspaper staff includes: **Bottom row:** Kenny Watanabe, Michael Hankinson, Lesa Anderson, Marci Allen, Diane Akiyama; **Middle row:** Diana Zermeno, Rita Davis, JoLynne Christiansen, Jenny Lofgren; **Top row:** Rusty Scott, Audrey Peterson, Rick Kreifeldt, Tom Staples, and Mr. T.S. I. And T's Build For Future

The Industrial Trade students learn various skills through hands on experience. Auto-body and Auto-mechanics for example allow students to reconstruct their own cars and learn valuable lessons through their own mistakes. Granite High has many Industrial classes that relate to building. These include House Builders, Electrical, Masonary, Cabinet Makers, Woods, Drafting, and Plumbing. All of which contribute to the construction of the district sponsored home each year. This years' home was located in Holiday and sold quickly and for a profitable amount.

A.P. Shapes Up

This years AP Chemistry Program was led by **Mr. Neil VanLuween,** who has taken the place as the new Chemistry teacher at Granite. Some of the students from this class went to the U of U to participate in lab exercises to help prepare them for the upcoming AP test.

Only in its second year the AP European History Program did very well. Taught by **Mr. English,** the class consisted of nine students.

AP Computer Science instructed themselves in the IBM Lab throughout the year. **Ricky Meier** (Junior) who had previously taken the AP Computer Science test, helped prepare the other students for the examination.

AP Calculus is one of the larger AP Classes at Granite. **Mr. Edwards** taught these students calculus plus he brushed them up on Geometry and Trig. The Calculus course uses all math skills from algebra to trig.

All these AP course helps the student get college credit, by taking the AP examinations in the spring and passing with a score of 4 or 5 these students will receive college credit.

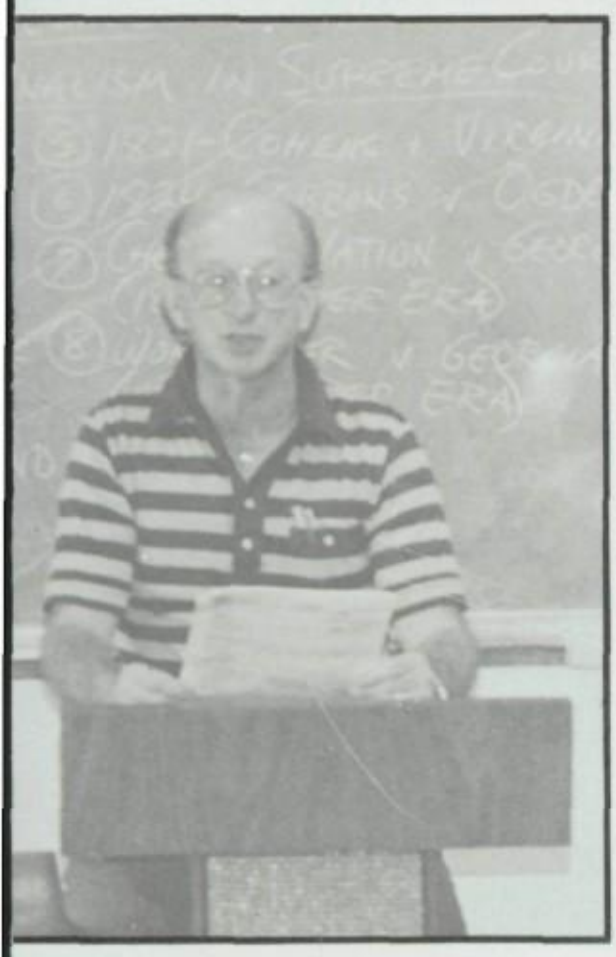
Studying up: *A.P. History students review a study sheet to prepare for an upcoming test.*

Mrs. Carol Anderson *was in charge of the A.P. English class. This was her first year teaching the class.*



Many A.P. students are also involved in a large variety of extra-curricular activities. **Mr. Dale Wood** is in charge of the A.P. History Class.

Students Find A.P. Mind Boggling

Study, study, study. That's what all A.P. students find they have to do to pass the test at the end of the year. As the students buckled down and started studying they found that the classes also helped them to learn better studying habits that would prepare them for life.

"I think it's a good class, and I'm glad we've got it. It makes you work but eventually you need that in life." commented ***Jenna Baumgart,*** *a junior who is taking A.P. History.*

But what is A.P. and what does it stand for? A.P. stands for advanced placement, in that only the most studious students in the school may take it. If the student passes an exam given at the end of the year, he will receive college credit. The exam is scored from one to five. In order to obtain college credit a student must earn a three or higher. As ***Mr. Wood*** *the teacher of A.P. History states, "I know it's just one or two questions that can make the difference between a two and a three."*

The material that the students have to study can also be very extensive. In A.P. History the students must virtually memorize the period of America from the early colonization up to the present. The A.P. English must learn how to write better and more direct essays, and also how to intrepret poems. They must also read a variety of books ranging from Shakespeares classic The ***Taming of the Shrew*** *to Fyodor Dostoevesky's novel* ***Crime and Punishment.*** *It is necessary that the students read the book so that they will have information to use on essays that they will have to write on the A.P. exam.*

In charge of this class was Mrs. Carol Anderson, and with her direction the students became excited about the material that they were studying.

What did the student think about their classes? Gaby Carbajal found it "mind boggling," and Anita Astill not so jokingly stated "I hate it. I hate it. I hate It!!!" Some of the student actually enjoyed the class, such as Steven Palmer who stated "It's really good, I like it a lot." But whether the student did or didn't enjoy the class almost all agreed that it was a class well worth taking.

The Super Studious Students Go Into

Brain Warp Drive

The academically inclined students of Granite High are catagorized in two groups. The first of these is the National Honors Society. This group of 23 students is under the supervision of ***Mr. English.*** *Being Chairman of the board,* ***Mr. English*** *commented, "This year* ***Laura K. Worthington*** *has done more for the club than has any previous president." He also stated, "It's an honor and privilege to work with such bright students." At the beginning of the year, the students took time out of their busy schedules to attend a banquet in their honor. During this feast, the president of the club swore all new members to at least two hours of tutoring a week and the collection of a five dollar club due. In their future, the club will help recognize the students for jobs and scholarships.*

The second of the two groups is the Upper 5%. These are the top 19 senior students at school. To be classified in this group, the students had to maintain a 3.7 or better grade point average for all three years in high school. There's not a lot of prestige in this club, but the students are proud of their accomplishments.

Sterling Scholars Help
Granite Excel

The judging was stiff and the competition was tough, but this years Sterling Scholars came out on top. Out of ten scholars from Granite seven were finalists. TThis made our school second in the state only to Skyline which had eight finalists. Even those who weren't finalists put on a tough fight and did very well in their respective categories.

For the judging the students had to prepare a portfolio filled with reccomendations and awards. The scholars had to work long to get their portfolios done before the deadlines. ***Kenny Watanabe*** *the General Sterling Scholar did an exceptional job on his portfolio.* ***Gordon Beckstrom*** *the advisor said it was the best portfolio he had seen in years. Thanks to the Sterling Scholars for bringing the recognition to our school that we deserve.*

Laura Kay Worthington, *the English Sterling Scholar is also one of the school historians.*

The Sterling Scholars *for 1985-86 were: Laura Kay Worthington, English Finalists; Jason Wadsworth, Music; William Black, Drama; Marsha Farley, Homemaking - Finalist; Kelly Evans, Social Science - Finalist; Kristina Reynolds, Visual Arts - Finalist; Roy Watanabe, General Scholarship - Finalist; Brian Stevens, Math; Brenda Colby, Science - Finalist; and John Winkellkotter, Vocational - Finalist.*

Even Granitian Alumni *have spirit. These Alumni came back during Homecoming week to play water polo.*

Painting The Town

Sketches, rough drafts, and finally the finished product was what the Beaux Art Club had to do to enter their portfolios in the different art exhibits around the city. "Taking an idea or fantasy and putting it into your artwork, then showing it off, is what it's all about." commented **Mr. Snow,** "The beauty in sculpters, paintings, and ceramics is a major part of every day life."

Most of the students feel that it's not the glory of the limelight, but the satisfaction of finishing a piece of work, and have someone admire it for it's beauty and grace. **Kristina Reynolds, Lionel Carbajal, Tim Henderson, Shannon Smith, Tiffiny Tippets,** and **Demos Torres,** to name a few, all agreed that **Mr. Snow** did a great job with all his students.

The Vocational Industrial Clubs of America (V.I.C.A.) stepped out of the closet to help those in need. **Mr. Warner Schoech's** classes were the head of the department of one of the many "Sub for Santas" at Granite. The club donated Christmas gifts such as clothes, toys, food, money, and even a christmas tree to a family of seven.

The club met monthly to help prepare them for the district, state, and national VICA competitions. In the meetings guest speakers would talk about everything from the free enterprise system, to parliamentarian procedures.

A nation in mourning: On January 28, 1986 the space shuttle Challenger exploded nine miles above the earth killing all seven astronauts on board. The first civilian - a school teacher, was one of those that died. Crazy Critter: Humphrey a 45-foot humpback whale swam seventy miles up California's Sacramento River. To guide him back out under the Golden Gate Bridge, marine scientists lured him with recorded sounds of humpbacks feeding.

"Contras" or Nicaraguan Rebels take a break from their daily duties to pray. During 1985-86 there was a large debate in Congress and around the nation, over whether the U.S. should give aid to the rebels.

In 1985 a massive earthquake hit Mexico and killed approximately 5,000 people. The earthquake left thousands more homeless, and destroyed major parts of the worlds second largest metropolitan area.

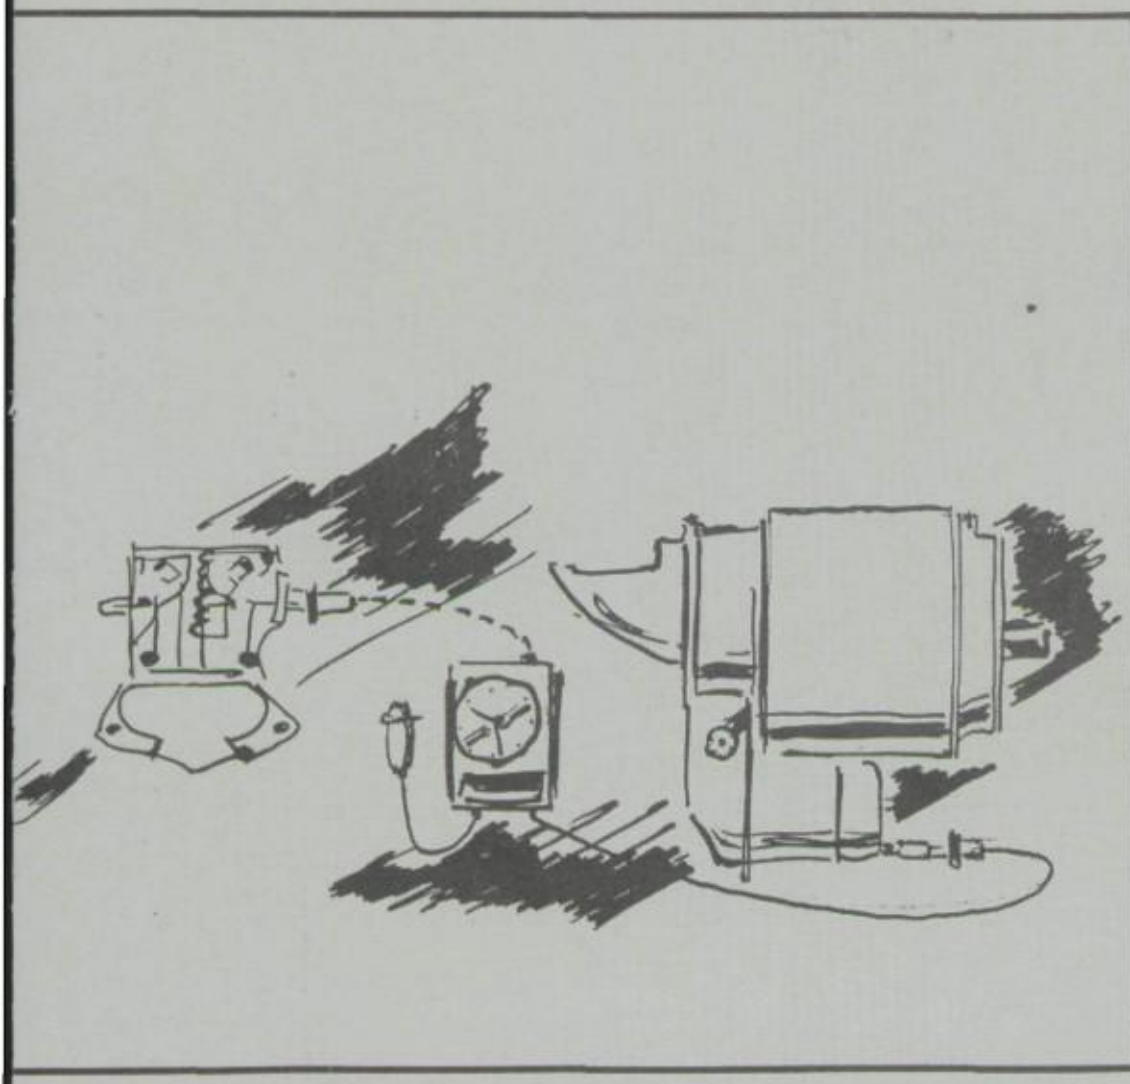
Utah In 1985



Some Utah Events Go Nation Wide

Black mist

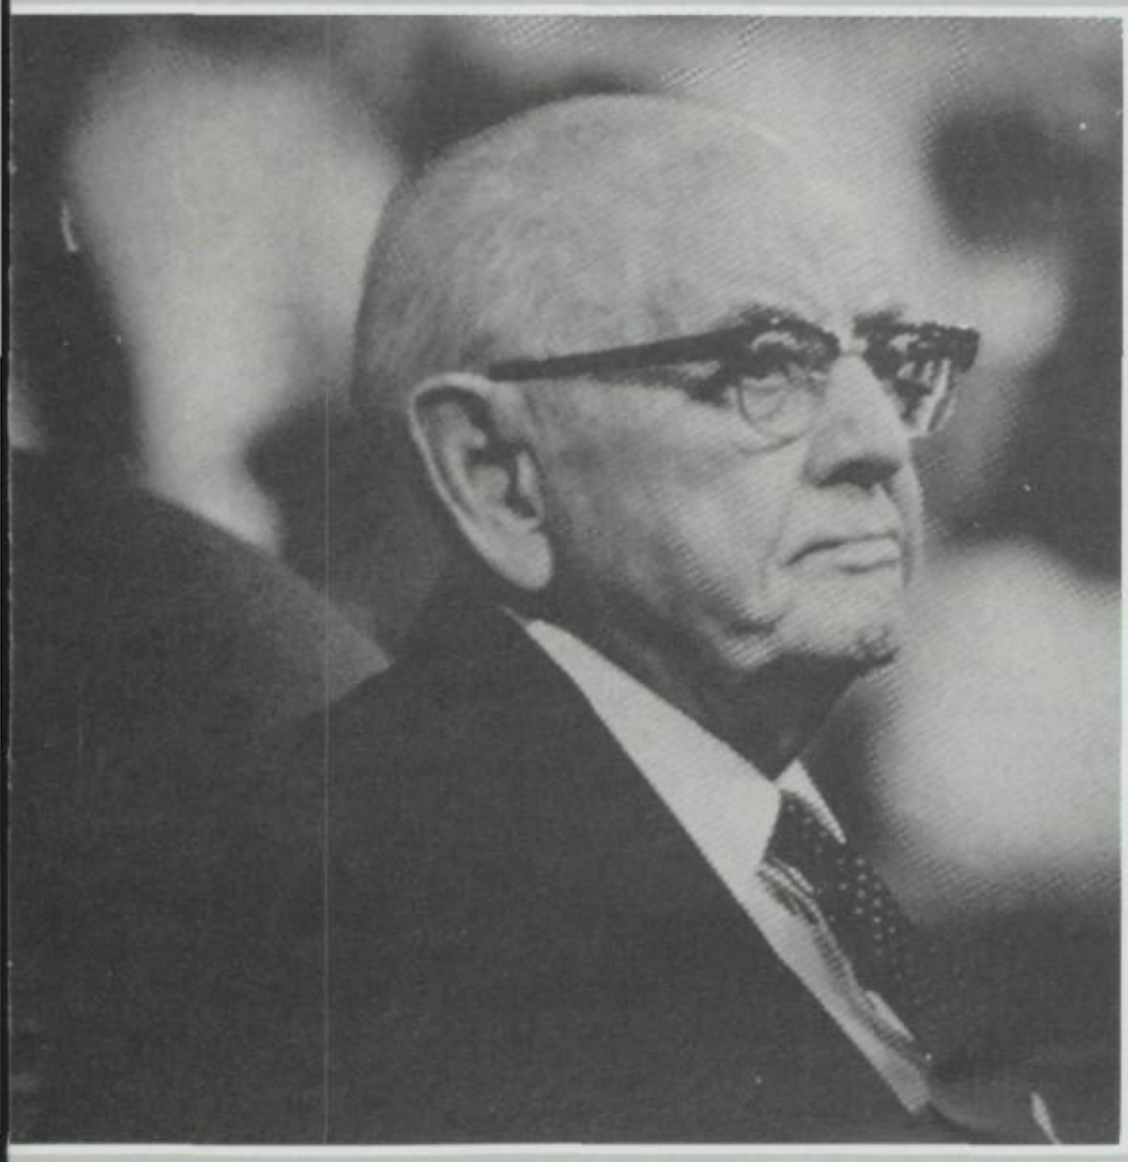
In 1985 many of Utah's headlines made national and world news. The death of ***President Spencer W. Kimball,*** *prophet of the Church of Jesus Christ of Latter-day Saints, on November 5, 1985, just 3 weeks after the contraversial "White Salamander Letter" connection to the bombings of* ***Mrs. Gary Sheets,*** *and* ***Steve Christiansen,*** *both made national news and some world wide acclaim.*

The ***Lafferty*** *Brothers carried over as a main story of 1984 and became a top story of 1985. A strange decision in that case came about when the sentencing was handed down. Both had committed murder; one was given the death sentence, the other life in prison. The explosion of the "Goldminers Daughter" lodge at Alta ski resort was another major story, mainly due to a 12 year old girl who was trapped beneath the rubble for three days. Her hand had been trapped between cement beams and a miracle occured when she found there had been no damage done.*

Kennecott's closure had major impact on many Utah families. The closure was gradual, but by November all the employees left were the administrators; therefore leaving many families with out an income at holiday time. Last year the Wilberg Mine caught fire and trapped, killed, and burried 27 men in a firey tomb. This year recovery crews began to remove the bodies of those miners, identify them, and return them to the families for burrial.

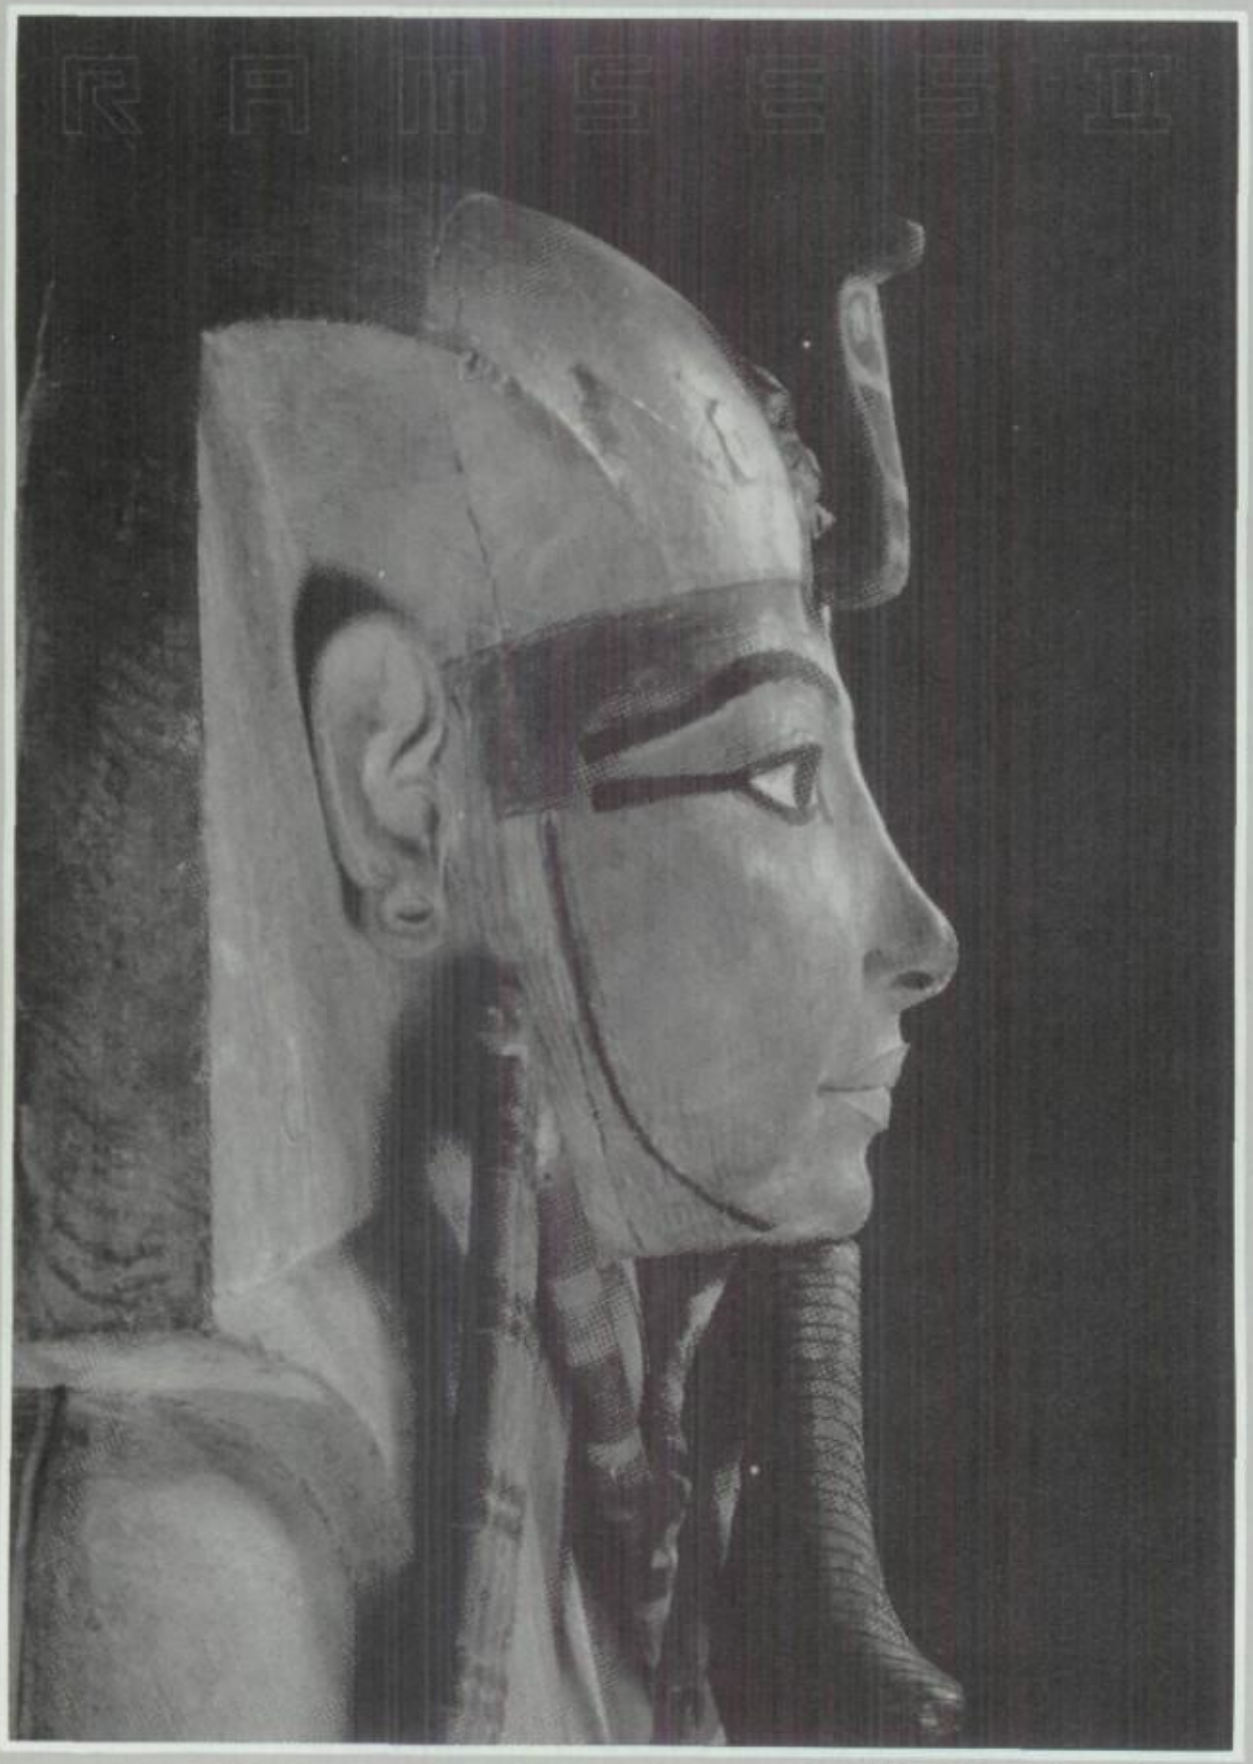
According to a poll taken by Granite High A.P. students the top stories of 1985 were:

#1 PRESIDENT KIMBALL'S DEATH 40%
#2 BOMBINGS OF MRS. SHEETS AND STEVE CHRISTIANSEN 30.6%
#3 LAFFERTY BROTHERS CASE .. 11%
#4 ALTA LODGE EXPLOSION 7.4%
Tied for
#5 KENNECOTT CLOSURE AND WILBERG MINE RECOVERIES 5.5%

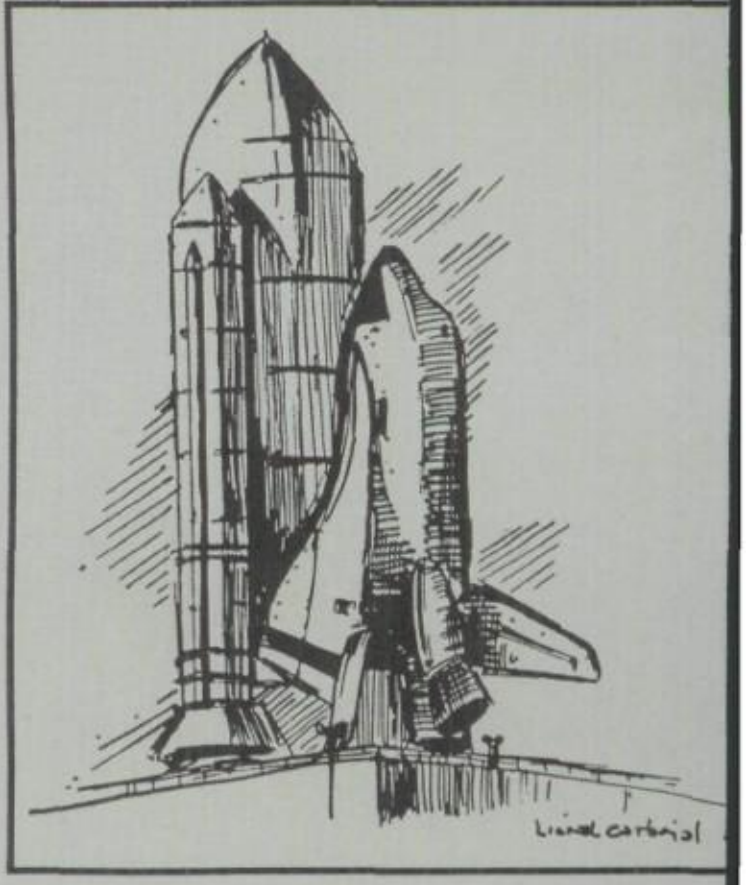


The Salt Lake bombings *claimed two victims lives: Steve Christiansen and Mrs. Gary Sheets. Another victim Mark Hoffman, survived a bomb in his car.*
The death of L.D.S. *church and civic leader Spencer W. Kimball caused millions of people around the world to mourn his death.*

The Events Of



The U.S. Premiere of the Ramses II exhibit was held at B.Y.U. from October 1985, thru April 1986, Ramses II is held to be the greatest Egyptian Pharoah by most anthropologists.



***During 1985-86 two** Utahns flew into space aboard the Space Shuttle. **Don Lind** was one, and the other was **Senator Jake Garn**-the first civilian in space.*

***Flight 191 is down:** A Delta airplane crashed just short of Dallas and killed 13[illegible] passengers; only 24 survived. This crash along with many others around the world, made 1985 the worst year ever in aviation history.*

World Events Make Their Mark In 1985-86

The year of 1985-86 was riddled with a number of disasters and terrorist attacks. Despite this, advancements were still made in science and the humanities.

Among the advances made in science was the discovery of a drug that scientists hoped would cure many forms of cancer.

In the humanities, the Statue of Liberty was restored. Also, a number of concerts were staged by celebrities for benefits ranging from the starving people in Africa to the farmers in the U.S.

The year was also marked by terrorism. On Oct. 7 Palestinian terrorists hijacked the Italian cruise ship Achille Laurel. They then murdered an American Jew and threw his body overboard.

Following this event, on Dec. 26 Fourteen people were slain in simultaneous attacks on the Rome and Vienna Airports. Three terrorists threw grenades and fired machine guns at customers waiting to purchase plane tickets. As a result of this attack the U.S. and Israel blamed Libya for supporting the terrorists. President Ronald Reagan then imposed sanctions on Libya and ordered all Americans out.ol Natural disasters also played an important role in world history. Ir Columbia the volcano Nevado Del Ruiz erupted and shot a flame 8,000 feet in the air. Then, a mile wide wall of mud and ash flowed down the Hillside and covered a number of cities. 22,000 people perished.

Also, a large earthquake in Mexico killed around 5,000 people and left thousands of others homeless.

Another shocking event that occurred was when in January the Space Shuttle Challenger exploded a little before two minutes after liftoff. This was the worlds worst space disaster ever, killing seven astronauts.

All of these disasters caused many of us to realize how fortunate most of us are, and to see how fragile human life really is.

The comet is back: Halleys Comet returned after its usual 75 year voyage.

Middle left: Terrorist backer: *Libyan Leader Muamar Kaddafi was accused of backing terrorist groups such the P.L.O. by President Reagan.*
Racial discrimination: *Apartheid in South Africa brought about large-scale riots by blacks, and also U.S. sanctions against the nation. Here some onlookers bathe the head of an injured protester.*
A bloody Christmas: *On Dec. 27 Palestinian Terrorists murdered 15 travelers, ircluding 5 Americans.*
Superpower leaders meet: *President Reagan and Soviet Premier Andrei Gorbachev discussed a variety of subjects including the Star Wars Defense Plan, at a summit in Geneva Switzerland.*

Traditions Aside,

Some People Need Some Thanking.

Putting together a yearbook takes a great amount of time and energy from all of the people working on it. We would like to thank all of the Granitian staff for their time and dedication.

Thanks to-

Joyce for her psalm of the Soph. date - it was very spiritually uplifting *... **Stephanie** for being sick on the yearbook deadline ... **Monica** for buying Christmas toys on the deadline, and also for the open and closed sign on the y-book trip ... **Tim** for putting up with **Tracys'** hangman games ... **Craig** for finding the index after we lost it ... **Michelle P.** for letting us know you had nothing to do ... **Janice C.** for keeping Michelle company in the halls during class ... and **Angel** for her perfection in keeping us "in the red."*

Thank you-

***Lisa** for not getting too upset when I threw your page away ... **Leslie** for throwing away your page before we had the chance ... **Kuntharoa** for playing "Hergy ball" with me while the rest of the staff waited for their pizzas ... **Travis** for being the only staffer to **want** to do a page ... **Demos** for getting the assemblies page done "on time" ... **Robert S.** for getting such a great water fight going at our first party - thanks a lot for transferring out at the semester ... and **Margeret** for loaning her house to us to work in for the soph. section.*

Thanks-

***Tracy** for running around outside and flapping her arms with me on the y-book deadline ... **Gary** for those quiet days when you didn't come to school ... **Tammy** for not screaming- only hiding, when we almost got in the wreck with the six foot sandwich hanging out the window ... **Robert Stoddard ... for always attending class** ... **John** for the wondermous cheerleading page ... **Kristen** for all your diligent work on the FHA page ... P.S.- Ninny! ... **Scott** for the jazz band page ... **Lionel** for his great divider pages ... **Dottie** for being so calm during times of crisis - is there any time when you are'nt? ... and **Jennifer F.** for smiling, while at the same time you complain about your page.*

Thanks to-

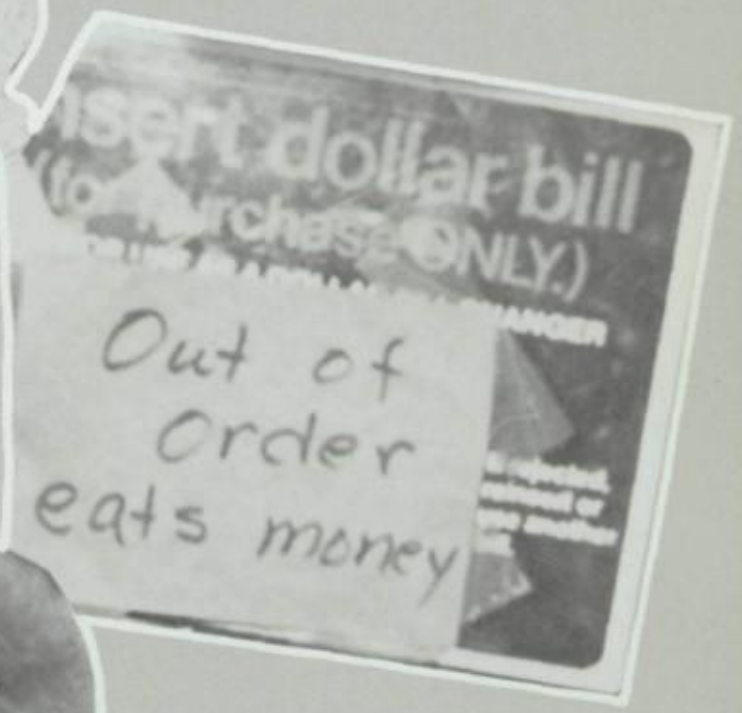
***Debbie** for taking care of the Fads & Fashions page ... **Jenny L.** for the puddle splashing fight - it was kind of you ... P.S. good luck next year ... **Jack** for dissapearing from class all of the time and giving us something to think about ... **Michelle M.** for taking us to meet "George" - it was the highlight of our lifes ... **Valerie** for giving us your page in a lunch bag and saying "everythings done except the typing" ... and finally **Kenny** for the pink fingernails ... P.S. Yes! Yes!! Yes!!!*

A large part of the yearbook depends on the photographers. And so thanks to-

***Steve** for enduring the chemical problems and also for the "enlightening" tips on dating ... **Mark** for getting so many pictures done on time without complaining ... **Brian** for throwing up on Steve on the yearbook trip ... **"Quaing"** for being a great astronaut and thus reinforcing our opinion that your head is always in the clouds ... and **Todd** for the great photographs of your feet and jeep - what talent ...*

*Special thanks must also go to **Jostens** and our y-book representative **Bill Baker** for always saying **we** were short ... Also to **Don Blair Photography** for all of their help and co-operation ... and last but not least to our advisor **G. Clark** for being a great advisor, and for having a positive attitude on deadline days, even though we thought we were all going to die ...*

GRANITE



OUR GRANITE HIGH YEARS

We'll always remember
the red and the blue,
and faces so tender and dear.

We'll always remember
the laughs and the smiles;
and the struggles and sorrows and tears.

Although we may travel
o'er many strong miles,
We'll always remember,
in May and September,
Granite High as our happiest years.

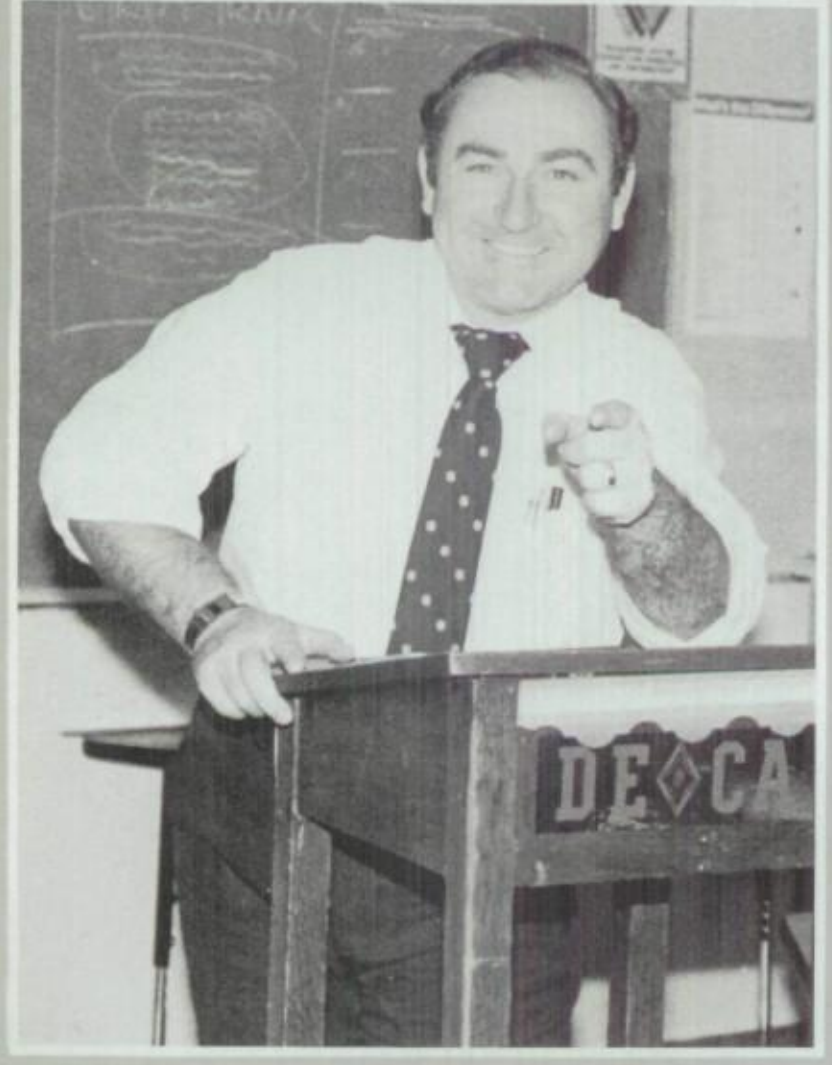
Tiffiney Tippetts



An inspiration to many *students "G" Clark; has proven he's even more diversified by advising this great yearbook.*

Although our bleachers may *be bare, that Farmer Spirit is lingering there.*

Our very special *"Granite Rock", given to us by the class of 19, will be remembered as an honored tradition.*

The new addition *to our football field, seen at the North end, welcomes guests to our school.*

Graduation is the main *event for all seniors, like* ***Tracy Shimmin, David Glick,*** *and* ***Tammy Smith,*** *who model the proper attire.*

Two people, Mr. and Mrs. Don Blair, *not only contribute a great deal of work to 'The Granitian', but also contribute their time to charitable events for children.*

Have a bitchin summer
and don't do any drugs that I
wouldn't do. (Funny huh!)
Stay out of trouble
and for Christ's sake
Grow some hair would ya!

Song Of The "G"

When Sight and sound of the campus
Fade in the long, busy years,
Yet will return in our memories
Echoes of old songs and cheers.
You of the field, track and diamond,
Fighters for clean victory.
You who love the fair, square sport,
You'll hear the song of the "G".
Go it, Granite, go it, Granite,
Hear the battle cry;
Go it, Granite, go it, Granite,
Yours till we die.
She will remember; you'll not forget her
Though you are far away.
She is calling, calling to you ever,
Honor the grand old "G".

Hi Buddy
Yes we will always be buds.
Your a cool as hell friend & stay
cute and always be my friend buddy
I'll see ya later in the summer &
(Love ya bud Lanette &)
